[CRS – Scholarships for the  
Next Generation of Scientists](#)

*10 years 2 months ago*

Funding Opportunities and  
Sponsor News

Scholarships for the Next  
Generation of Scientists is a  
Cancer Research Society  
funding program with the goal  
of supporting the future  
generation of Canadian  
researchers. The award  
consists of two parts covering a  
period of three years, with no  
possibility for renewal.

## What is Research Alerts?

Research Alerts is a communications technology that allows UoG faculty, staff and students to stay up to date on news from the Office of Research. Through Research Alerts, subscribers receive emails related to research funding opportunities, workshops and events, policies and more. Each subscriber sets individual preferences to indicate the topics and categories of information that are of interest to them. When a message (Alert) is published in the Office of Research that matches the subscriber's selected preference categories and topics, it is e-mailed directly to the subscriber. Because this is a web-based technology, the Research Alerts site can also be searched using the search fields, or browsed through the topics by category.
