[The Intersectoral Action Fund](#)

3 years 10 months ago

Funding Opportunities and
Sponsor News

The objective of the Fund is to support action on social determinants of health by building capacity in communities to advance intersectoral action, in ways that improve population health and reduce health inequities. Applicants must demonstrate how their proposal aligns with this objective in...

[The Mihara Cerebrovascular Disorder Research Promotion Fund](#)

7 months 3 days ago

Honours and Awards

In view of an urgent need in Japan to further promote basic and clinical studies on cerebrovascular disorders, the Fund provides research grants to researchers to financially assist them in conducting their studies, and thereby aims to contribute to the progress of

What is Research Alerts?

Research Alerts is a communications technology that allows UoG faculty, staff and students to stay up to date on news from the Office of Research. Through Research Alerts, subscribers

Social Sciences

Published on Research Alerts (<https://www.uoguelph.ca/research/alerts>)

receive emails related to research funding opportunities, workshops and events, policies and more. Each subscriber sets individual preferences to indicate the topics and categories of information that are of interest to them. When a message (Alert) is published in the Office of Research that matches the subscriber's selected preference categories and topics, it is e-mailed directly to the subscriber. Because this is a web-based technology, the Research Alerts site can also be searched using the search fields, or browsed through the topics by category.
