Description

The Action Canada Fellowship is a 10-month public policy leadership program that aims to enhance young leaders' understanding of the country and public policy choices for the future.

The Public Policy Forum and Action Canada have joined forces to expand Canada's top incubator of new leaders.

Since 2003, Action Canada has successfully organized this national fellowship that emphasizes leadership development and civic engagement. It brings together Canadians from diverse backgrounds and from all regions to investigate timely, topical and strategic policy issues affecting Canada. Each year, approximately 16 Fellows enhance their leadership skills, forge lifelong connections with people and communities across the country, and promote greater civic engagement among all Canadians.

The Fellowship year is an intense and challenging experience. Over 10 months (between June and March), the Fellows, Mentors and Advisory Council members participate in four study tours, each in a different region of Canada.

In March, Action Canada Fellows release their final reports and discuss their findings at a national conference. Each cohort of Fellows examines a different policy topic. For example, in 2017/2018, they looked at the transition to a low-carbon future. This year, it is the future of food. The theme for 2019/2020 will be announced after the next cohort has been selected.
