Description

Brain Canada and **CQDM** are joining forces to support interprovincial collaborative biopharmaceutical research and development (R&D) projects on the brain. This partnership creates a unique funding opportunity that brings together experts from academia and industry to support the development of platforms, tools and biopharmaceuticals that will pave the way for new advances in the prevention, diagnosis and treatment of brain disorders. This initiative is focused on brain research relevant to biopharmaceutical applications. The aim of the initiative is to increase research collaborations, foster technological maturation, and to promote the knowledge, capabilities and new technologies developed in public institutions.

Eligibility

This award is intended for research teams with a minimum of two independent researchers, including a principal investigator from a research institution in Quebec and an independent researcher from a research institution in another Canadian province. They must work in close collaboration with at least one Quebec enterprise (SME).

NEW: Projects involving a company with more than 250 employees are eligible. However, CQDM's financial support may be reduced. Contact CQDM for more details.

Maximum Project Value

The project budget should be between \$500,000 and \$1M.

Indirect Costs

0% per guidelines

Project Duration

Minimum 1 year, maximum 3 years
