

Canadian Council on Animal Care seeks reptile and amphibian expertise

Sponsor

Canadian Council on Animal Care (CCAC)

Description

The Canadian Council on Animal Care sets the standards for the care and use of animals in science in Canada. Currently they are seeking input from faculty and other expert personnel who work with reptiles and amphibians to provide input into new guidelines being developed to govern the use of these classes of animals in research, teaching and testing. Please see the [notice](#) [1] for information on how to nominate or self-nominate to the committees that will develop these guidelines. The University of Guelph Animal Care Committee encourages members of the university community to participate in this process.

Deadlines

If College-level review is required, your College will communicate its earlier internal deadlines.

Type	Date	Notes
External Deadline	Friday, August 31, 2018 - 5:00pm	Send nominations (self-nominations also accepted) to the CCAC Secretariat at nominations@ccac.ca [2]

For Questions, please contact
Sascha Tuuha, Program Manager
