Description

The Canadian Frailty Network (CFN) is looking to fund high-quality research, knowledge translation and implementation of innovation in practice studies on healthy aging carried out in the Kingston, Frontenac, Lennox & Addington (KFL&A) region. This competition is designed to support ancillary studies on older adults aged 65y+ residing in the KFL&A region who are participants in CFN's AVOID Frailty Program via the KFL&A Centre for Healthy Aging (<https://healthyagingcentres.ca> [2]). AVOID Frailty is a community-driven primary prevention intervention that aims to enable uptake and maintenance of healthy behaviours for older adults.

Driven by a holistic view of health, the AVOID Frailty Program for Healthy Aging provides the knowledge, tools, support, and opportunities to prevent, mitigate and/or delay the onset or worsening of frailty. Together with diverse partner organizations within the KFLA region, the KFLA Centre for Healthy Aging aims to harness and enrich communities with opportunities for ongoing age-friendly research, knowledge translation, and implementation of innovation.

Eligibility

- Have at least one Principal Investigator (PI) from or affiliated with a Tri-Council [eligible](#) [3] host institution located in the KFLA region.
- Include Highly Qualified Personnel (HQP) trainees who will be directly involved in a meaningful way in the study. HQP can be part-time or full-time graduate/doctoral/post-doctoral or undergraduate students, residents, fellows or working professionals. Note that meaningful involvement in the study components of a project includes activities

such as data collection, data synthesis, report writing, etc., but would exclude tasks that are more related to administration and/or coordination (e.g., data entry, meeting scheduling, minute taking, completion and distribution of paperwork, etc.).

Funding Availability

\$400,000 available for this competition

Maximum Project Value

\$75,000 per grant

Indirect Costs

0%

Project Duration

18 months

Deadlines

If College-level review is required, your College will communicate its earlier internal deadlines.

Type	Date	Notes
External Deadline	Thursday, October 6, 2022 - 4:00pm	Letter of Intent - Mandatory: PI to submit online to sponsor via the CFN's Forum website [4]. See the CFN website [1] for LOI application information. Please review the Application Instructions [5] document prior to completing the Full Application.
Internal Deadline	Monday, October 31, 2022 - 11:59pm	Application: PI to submit a copy of application and signature page along with a complete OR5 form to: research.services@uoguelph.ca

Type	Date	Notes
External Deadline	Monday, November 7, 2022 - 4:00pm	Application: PI to submit directly to sponsor via the CFN's Forum website [4]. Only Project Leaders that have previously submitted an LOI are eligible to submit Full Application. Go to CFN's Forum website to complete the online Full Application, which will be available after the LOI deadline . Please review the Application Instructions [5] document prior to completing the Full Application.

How to Apply

Only Project Leaders that have previously submitted an LOI are eligible to submit Full Application. Go to [CFN's Forum website](#) [6] to complete the **online Full Application, which will be available after the LOI deadline**. Please review the [Application Instructions](#) [5] document prior to completing the Full Application.
