
CIRA: .CA Community Investment Program

Sponsor

Canadian Internet Registration Authority (CIRA)

Description

The Canadian Internet Registration Authority, through this grant program, will make strategic investments in Internet related community projects consistent with [CIRA's Strategic Plan](#) [1]. In addition, the projects selected will need to demonstrate their ability to support one of the fundamental tenets of the organization, which is to develop, carry out and/or support any other Internet-related activities in Canada.

Eligibility

Academics and researchers affiliated with a Canadian university. Organizations must be based in Canada and projects, while they can have a broader impact, must be of benefit to Canadians.

Funding Availability

The typical grant will be approximately \$25,000 - \$50,000, to a maximum of \$100,000. Grants are meant to be a one-time investment and not intended as operating funding for an organization. If you are applying for project funding that is part of a larger project, be specific about the portion for which you are requesting funding.

Indirect Costs

15% of the total amount requested (for example: \$25,000 total amount requested divided by .85 = \$29,411.76 x .15 = \$4,412 IDC)

Project Duration

Up to one year

Deadlines

If College-level review is required, your College will communicate its earlier internal
