

CRS: UpCycle Drug Repurposing Grants Competition

Sponsor

Cancer Research Society

Description

The UpCycle Drug Repurposing Grants Competition is a new mean by which the Cancer Research Society aims at accelerating the discovery of treatments for cancer patients.

Eligible projects should fall into one of the following categories:

1. Screening of an approved compound library provided by the Cancer Research Society. See their [FAQ](#) [1] for details.
2. Computer-assisted or *in silico* screening followed by pharmacological validation of FDA-approved, off-patent, repurposed compounds.
3. *In cellulo* or *in vivo* validation of an FDA-approved, off-patent drug with demonstrated drug repurposing potential.

Research must be performed using proteins or cells of human origin unless a compelling case can be made for another organism.

Information For Co-applicants

If you need to meet a deadline set by the lead institution for this opportunity, please ensure that you provide the Office of Research with at least five days in advance of the lead institution's deadline to review the application, or your proposed component of the project. Please be in touch with the Office of Research (contact information below) ahead of the deadline if it looks like it will be difficult for you to submit all the required documentation on time (i.e. budget, proposal, OR-5 Form).
