Skills for Research Impact: Accessible KMb Products

Date

Tuesday March 12, 2024 1:00pm to 2:30pm

Location

UC 442 and Zoom (register for link)

Description

You've done the research and created the outputs. But how do you know that you're reaching everyone who might be interested? Get tips on how to make your knowledge products as accessible as possible so they can be understood and used to their fullest potential.

After attending this workshop, participants will be able to:

- Understand why accessibility matters for all knowledge users
- Define basic principles of digital and physical accessibility
- Identify good accessibility practices in a range of knowledge products (infographics, reports, websites, charts, tables, etc.)
- Implement good accessibility practices in their own knowledge products

About Skills for Research Impact

Spanning the fall and winter semesters, Skills for Research Impact is a workshop series for University of Guelph faculty, research staff and graduate students interested in enhancing the impact of their research. Through sessions facilitated by impact experts, participants will learn how to successfully plan, execute and evaluate knowledge mobilization (or knowledge translation and transfer) activities. Learn more about each of the sessions at uoguel.ph/research-impact.

Throughout the series, participants will gain skills that can be applied to their own research contexts, goals and projects. Workshops will be highly participatory and will provide practical knowledge, skills and tools that can be used right away. Join us online for one or multiple sessions! Letters of recognition are available upon request at the end of the series for those who attended all five virtual sessions.
