

Advancing Water Technologies Program Information Session

Date	Location
Tuesday June 14, 2016 8:45am to 10:00am	Alexander Hall, Room 168

Description

The [Advancing Water Technologies \(AWT\) Program](#) is a brand new catalyst for business-led collaborations in the water sector. It was created by the Southern Ontario Water Consortium to help Ontario small- to medium-sized enterprises (SMEs) leverage world-class research facilities and academic expertise to develop and demonstrate water technologies for successful introduction to the market. AWT provides financial contributions to industry-led research and development projects in the water sector that will result in the successful commercialization of globally-competitive and market-ready products and services. AWT will support existing industry-academic partnerships and actively encourage and develop new ones.

The Office of Research Services is pleased to invite interested researchers to attend an information session on the Advancing Water Technologies (AWT) Program, administered by the [Southern Ontario Water Consortium \(SOWC\)](#). This one-hour session will include an overview of the AWT funding program, including project eligibility and requirements, and information on the application process. The session will also include time for questions from the audience.

Agenda:

8:45 am – 9:00 am Light refreshments

9:00 am – 9:40 am Presentation by SOWC program staff

9:40 am – 10:00 am Question period

10:00 am – 11:00 am Break-out sessions (3 sessions available on a first come, first served basis). Researchers who are interested in briefly discussing a project idea with SOWC program staff following the session are encouraged to sign up in advance for a 15-20 minute meeting by emailing mclove@uoguelph.ca

To **RSVP** for the information session or to book a breakout session meeting with SOWC program staff, please contact Margaret Love (mclove@uoguelph.ca) by Tuesday, June 7, 2016.

Presenters:

Harriet Bigas
Manager, Research Partnerships

Rahim Kanji
Manager, Industry Partnerships
