### **Description**

The Discovery Grants Program supports on-going programs of research (with long-term goals) rather than short-term goals or a collection of unrelated projects. These grants recognize the creativity and innovation that are at the heart of all research advances. Researchers are free to work in the mode most appropriate for the research area.

### **Eligibility**

- Only Applicants and Co-applicants are eligible to apply for and hold NSERC funds.
- Eligibility for applying for/holding an NSERC grant:
  - Hold (or have a firm offer) for an academic appointment at an eligible Canadian university at the time of application. This can be a tenured, tenure-track or lifetime professor emeritus position; or a paid or unpaid term or contract position of no less than three years. The position must be finalized no later than six (6) weeks following the competition deadline of November 1, 2016.
  - The position must require the individual to engage in research that is not under the direction of another individual; and
  - The position must authorize the individual to supervise or co-supervise the research of students registered in an undergraduate or graduate degree program, or postdoctoral fellows (e.g. thesis supervision and not supervision of

regular course or laboratory assignments).

Please review [NSERC's Discovery Grants webpage](#) [1]; [NSERC's Eligibility Criteria for Faculty webpage](#) [6]; and the [UG NSERC Eligibility Criteria for Faculty webpage](#) [7] for further eligibility principles and criteria.

## Indirect Costs

Not applicable

## Project Duration

Grants are normally awarded for 5 years. Although a shorter duration can be requested, NSERC may award a grant of the normal duration.

## Special Notes

### Applicant Categories

Applicants to the Discovery Grant Program are categorized as either Early Career Researchers or Established Researchers. Refer to the [Discovery Grants - Applicant Categories](#) [8] for more information.

### Discovery Accelerator Supplements (DAS)

Evaluation Groups will review applications in accordance with the Discovery Grant criteria and will recommend a small number of applicants for an award according to the objective and description of the DAS Program. For more information, see the [Discovery Accelerator Supplements Program – Frequently Asked Questions](#) [9].
