<a href="#">GIST Sarcoma Life Raft Group Canada - Glenita Mungcal GIST Research Studentship 2016</a> GIST (Gastrointestinal Stromal Tumour) is a rare sarcoma that can occur anywhere along the GI tract. Until recently, GIST was little understood, misclassification was common, and prognosis was poor. Now, discoveries concerning the origin and development of GIST have completely changed the...	9 years 5 months ago	Funding Opportunities and Sponsor News	<ul style="list-style-type: none"><li>• Health and Life Sciences</li><li>• Information and Communications Technology</li><li>• Physical Sciences and Engineering</li></ul>

## What is Research Alerts?

Research Alerts is a communications technology that allows UoG faculty, staff and students to stay up to date on news from the Office of Research. Through Research Alerts, subscribers

## All Alerts

Published on Research Alerts (<https://www.uoguelph.ca/research/alerts>)

---

receive emails related to research funding opportunities, workshops and events, policies and more. Each subscriber sets individual preferences to indicate the topics and categories of information that are of interest to them. When a message (Alert) is published in the Office of Research that matches the subscriber's selected preference categories and topics, it is e-mailed directly to the subscriber. Because this is a web-based technology, the Research Alerts site can also be searched using the search fields, or browsed through the topics by category.
