CALL FOR PROPOSALS

Dear Esteemed Colleagues:

The Ontario Ministry of Transportation (MTO) is pleased to announce the call for proposals as part of the 2019-2020 Road Safety Research Partnership Program (RSRPP). This program funds researchers in the broader public sector to conduct cutting-edge, road safety research that supports Ontario's efforts to improve road safety.

For the 2019-2020 competition, proposals must involve one of the following five key priority areas: 1) distracted driving; 2) driver education, training, and evaluation; 3) impaired driving; 4) automated/connected vehicles and advanced driver assistance systems; or 5) vulnerable road users. The MTO will be funding up to 5 projects, each with a maximum value of \$70,000 or \$100,000 depending on the priority area addressed (see Proposal Guidelines below). All relevant documents for this funding opportunity can be downloaded using the links below, including additional information on the priority areas and detailed instructions on the application process.

We are now accepting submissions and invite you to apply. The deadline for the submission of proposals is **December 4, 2019, 5:00 pm Eastern Standard Time.**

We encourage you to distribute this email and its contents to all of your eligible colleagues for consideration. Please direct applications and inquiries to RoadSafetyResearch.PartnershipProgram@ontario.ca.

Regards,

Yoassry Elzohairy
Manager, Road Safety Research Office
