

EQUITY, DIVERSITY AND INCLUSION IN RESEARCH

SERGE VILLEMURE

Director, Scholarships & Fellowships, NSERC

This session will focus on the consideration of **Equity, Diversity and Inclusion (EDI)** to enhance research excellence. It will address EDI in research teams and research methodology, design and questions; the changes required to enhance EDI in research and innovation; and the strategies and tools that the Tri-Agency is employing to address persistent barriers embedded in research cultures and systems.

At the end of this session, even though there is no magic solution, participants will leave with practical suggestions for addressing EDI in grant applications and implementing EDI within their research programs. This session will be broadly applicable to the natural sciences and engineering disciplines.

FRIDAY FEBRUARY 7th 2020

Time: **10:30am to NOON**

Location: **University Center (UC), Room 442**

SPACE IS LIMITED!

RSVP by Monday February 3rd 2019 to pminakis@uoguelph.ca
