

POLICY FELLOWSHIP

IN AGRICULTURE, FOOD, & BIODIVERSITY

ONE HEALTH COHORT

“

One Health: an integrated, unifying approach that aims to sustainably balance and optimize the health of people, animals and ecosystems.

”

How can policymakers use a One Health framework for complex challenges like food safety, emerging infectious diseases, climate change, and more?

Join the Policy Fellowship One Health cohort to learn about the One Health framework, connect with world-class experts on emerging One Health research, and discuss how this applies to your organization. 2 days of in-person tours, hands-on workshops, and networking followed by 3 weeks of virtual meetings (1-2 hours per week) on specific topics related to your organization.

MAY 11 & 12: IN-PERSON
at the University of Guelph

MAY 17-31: VIRTUAL
1-2 hours per week

Relevant topics include: Sustainable agriculture · Water quality and sustainability · Antimicrobial resistance · Environmental toxicology · Public health and public perception · Food security · One Health competencies · And more!

Participative networking opportunities are built into the fellowship's structure. The network you build with world-class University of Guelph researchers and peers from government, industry and civil society will provide ongoing engagement opportunities. Your One Health experience, and the connections you make through this Fellowship, will inform your work long after the Fellowship itself.

Reserve your spot by completing an application on our website: uoguelph.ca/policyfellowship
\$499 per participant. Applications due by **March 17, 2023**.
