

UNIVERSITY of GUELPH

Healthy Participants Needed!

WHO: Healthy men and women, between the ages of 18-80 years.

WHAT: Serological biomarker discovery, verification and validation to diagnose and monitor disease.

WHERE: The Department of Human Health and Nutritional Science at the University of Guelph.

Participants will be required to:

- Complete an online/phone screening questionnaire to determine eligibility
- **One hour** study visit at the University of Guelph, at which you will be asked to complete a medical history questionnaire and provide a blood sample.

COMPENSATION: Draw for 1 of 4 \$50 Starbucks or Metro Gift cards. Four participant names will be drawn upon completion of this study. With approximately 100 participants in the study, each participant has a 4% chance of winning.

To find out more about the study please contact: jslab@uoguelph.ca

This project has been reviewed by the Research Ethics Board (REB# 18-09-027) for compliance with federal guidelines for research involving human participants.
