

Transcript for O-Week 2020 DPM Degree Program Meeting for Bachelor of Engineering

WEBVTT

00:00:12.254 --> 00:00:14.814

Welcome to the school of engineering.

00:00:16.084 --> 00:00:20.294

Program meeting we're still waiting for some.

00:00:21.174 --> 00:00:24.244

some other students to join I heard there's another

00:00:24.244 --> 00:00:27.674

event happening at the same time if you're in contact with any of your

00:00:27.674 --> 00:00:31.004

friends please let them know but this program event

00:00:31.004 --> 00:00:34.384

is to explain what's going on for your first.

00:00:34.384 --> 00:00:38.124

year program will have quite a few speakers.

00:00:38.124 --> 00:00:41.844

An cutting give you a background in the course is an understanding of.

00:00:41.844 --> 00:00:44.214

goes on in your first year.

00:00:44.914 --> 00:00:48.024

So we are going to pass.

00:00:48.024 --> 00:00:51.034

it on to doctor John Runciman who.

00:00:51.034 --> 00:00:54.204

is the director of the school of engineering or just change.

00:00:54.204 --> 00:00:55.044

the slide here.

00:00:55.934 --> 00:00:59.124

and uh john you can start

00:00:59.124 --> 00:00:59.624

us off.

00:01:00.574 --> 00:01:03.644

thanks andrew good morning my name is john

00:01:03.644 --> 00:01:06.864

runs man and I am a professor and the director of the school

00:01:06.864 --> 00:01:07.634
of engineering.

00:01:09.084 --> 00:01:12.234
they have a brief personal intro I am a biomedical engineer

00:01:12.234 --> 00:01:15.364
and I teach second year design course with a couple

00:01:15.364 --> 00:01:18.774
of other instructors so we may see you next year in

00:01:18.774 --> 00:01:21.974
second gear design and I've been erased team advisor

00:01:21.974 --> 00:01:24.834
since its inception in 2003.

00:01:26.034 --> 00:01:29.244
I'll be kicking off this introduction to the SOA this

00:01:29.244 --> 00:01:32.424
morning and just going a little over

00:01:32.424 --> 00:01:35.554
a little bit about you know what it is to change and become

00:01:35.554 --> 00:01:38.664
an engineer, become an engineering student and join our.

00:01:38.664 --> 00:01:41.794
in our community and then also sort

00:01:41.794 --> 00:01:44.754
lead into the rest of the presentation so.

00:01:45.774 --> 00:01:49.214
I want to start by saying things are going to be a little different for

00:01:49.214 --> 00:01:52.284
us this year first start your class is not

00:01:52.284 --> 00:01:53.374
t going to be on site.

00:01:54.194 --> 00:01:57.224
which I think is the first time ever that's happened

00:01:57.224 --> 00:02:00.344
this is going to introduce a number of challenges for

00:02:00.344 --> 00:02:03.544
us and I hope you will be patient

00:02:03.544 --> 00:02:06.614

too as we try and make our way through through the

00:02:06.614 --> 00:02:10.224

year after year programs do have in person activities

00:02:10.224 --> 00:02:13.364

but this interaction will only be a small percentage of what would

00:02:13.364 --> 00:02:16.424

typically take place in a normal year with all of that

00:02:16.424 --> 00:02:19.564

said are welcome view in our expectations

00:02:19.564 --> 00:02:22.724

for your own personal professional development or still a strong and it's hard

00:02:22.724 --> 00:02:23.974

felt as ever.

00:02:24.434 --> 00:02:25.064

00:02:26.514 --> 00:02:29.904

each year we have students joined us from countries across the globe

00:02:29.904 --> 00:02:33.104

and if you're one of these students I'm going to say in quotation

00:02:33.104 --> 00:02:36.464

marks welcome to canada obviously you're probably not

00:02:36.464 --> 00:02:40.644

y not in Canada yet, but you will be soon. We're hopeful and.

00:02:40.644 --> 00:02:40.644

00:02:42.044 --> 00:02:45.404

be part of the part of the family here if you're from outside

00:02:45.404 --> 00:02:48.924

the region welcome to guelph and to all of you welcome to the university

00:02:48.924 --> 00:02:52.124

of guelph school of engineering wherever you come

00:02:52.124 --> 00:02:55.444

from you will find the university of guelph will become your

00:02:55.444 --> 00:02:58.614

home you're going to spend a lot of time here over the next 4 years

00:02:58.614 --> 00:03:01.944

and whether that's virtual for this first year or in person

00:03:01.944 --> 00:03:02.804
person moving ahead.

00:03:04.754 --> 00:03:07.784
either students in your class and in the

00:03:07.784 --> 00:03:10.824
school would become your friends you'll get to know faculty

00:03:10.824 --> 00:03:11.894
y and staff.

00:03:12.714 --> 00:03:16.624
And it will become part of who you become.

00:03:17.564 --> 00:03:18.224

00:03:19.454 --> 00:03:22.864
Together we sharing an experience that will be a defining period.

00:03:22.864 --> 00:03:25.954
in your life. For some of you, you're engineering.

00:03:25.954 --> 00:03:29.494
ogram will be a destination and

00:03:29.494 --> 00:03:33.104
for others it will be part of a longer academic journey

00:03:33.104 --> 00:03:36.184
that you may be taking whichever it is for you you will find your

00:03:36.184 --> 00:03:39.404
ogram challenging and rewarding. We've worked, really.

00:03:39.404 --> 00:03:42.444
ard to create programs that.

00:03:42.444 --> 00:03:45.844
are of interest and relevant and Topical.

00:03:45.844 --> 00:03:48.964
and you will find a high.

00:03:48.964 --> 00:03:51.374
level of engagement in our staff and faculty.

00:03:51.684 --> 00:03:54.714
uh to to your program into you as you make

00:03:54.714 --> 00:03:55.884
way through your program.

00:04:00.094 --> 00:04:03.504

A year ago you might have been thinking of applying.

00:04:03.504 --> 00:04:04.884

to an engineering program.

00:04:06.724 --> 00:04:09.934

you know 6 months ago or maybe waiting to hear if you been accepted

00:04:09.934 --> 00:04:13.064

to guelph and yesterday you were ready to start

00:04:13.064 --> 00:04:16.204

your engineering program and as of right now

00:04:16.204 --> 00:04:19.474

is very moment, the beginning of this week you are.

00:04:19.474 --> 00:04:22.684

now the newest member of the Griffin family.

00:04:22.684 --> 00:04:26.104

ily welcome to the university of guelph school of engineering and your

00:04:26.104 --> 00:04:29.674

engineering program you can now say officially

00:04:29.674 --> 00:04:31.194

that you're an engineering student.

00:04:32.064 --> 00:04:32.584

Um.

00:04:33.704 --> 00:04:36.734

Engineering is a bit of a unique profession that is core has.

00:04:36.734 --> 00:04:39.794

a responsibility to society for ethical behavior and the

00:04:39.794 --> 00:04:43.104

e safeguarding of health. You likely considered an engineering.

00:04:43.104 --> 00:04:46.744

ogram partially result of this reputation for

00:04:46.744 --> 00:04:49.914

over a century engineers have recognized the responsibility that comes

00:04:49.914 --> 00:04:53.274

mes with this position in our society and have tried to maintain the highest.

00:04:53.274 --> 00:04:55.594

els of personal and professional integrity.

00:04:56.394 --> 00:04:59.694

As an engineering student, you are now part of the engineering community.

00:04:59.694 --> 00:05:03.174

and we expect you will conduct yourselves at all times with the highest

00:05:03.174 --> 00:05:07.104

levels of academic and professional integrity things

00:05:07.104 --> 00:05:10.264

that might have been a scene as

00:05:10.264 --> 00:05:14.734

acceptable in your high school experience uh

00:05:14.734 --> 00:05:14.734

00:05:15.594 --> 00:05:18.884

Will not be considered so lightly here.

00:05:18.884 --> 00:05:21.964

and so we just want to make sure that everybody

00:05:21.964 --> 00:05:25.074

understands that uh we view

00:05:25.074 --> 00:05:28.404

your time here in the engineering school as the same

00:05:28.404 --> 00:05:31.504

as you would as a professional engineer when they leave and

00:05:31.504 --> 00:05:34.524

are licensed so please keep that in mind as you make

00:05:34.524 --> 00:05:36.624

your way through our program.

00:05:37.884 --> 00:05:41.374

uh in this morning's presentation will introduce some of the key people

00:05:41.374 --> 00:05:44.534

people that are key to your success over the next few years

00:05:44.534 --> 00:05:47.954

in addition to some of the nuts and bolts of the program and associated.

00:05:47.954 --> 00:05:51.844

activities in the school. And there's a.

00:05:51.844 --> 00:05:54.994

lot of information is going to be passed on to you today you're going to meet

00:05:54.994 --> 00:05:58.154

a number of the people that are going to be key and

00:05:58.154 --> 00:06:02.164
it is an important presentation to

00:06:02.164 --> 00:06:04.154
follow and.

00:06:04.234 --> 00:06:04.424

00:06:05.154 --> 00:06:08.444
And take away with you some of the information.

00:06:08.444 --> 00:06:10.944
so that you can be a success here in the school.

00:06:11.564 --> 00:06:14.614
Now, Doctor Andrew and Bradford, our associate director of.

00:06:14.614 --> 00:06:18.134
undergraduate studies, I believe, is taking the presentation.

00:06:18.134 --> 00:06:19.644
from here. Andrea you there?

00:06:22.294 --> 00:06:25.434
john she's actually not OK so I'm I was just

00:06:25.434 --> 00:06:26.404
going to briefly.

00:06:27.004 --> 00:06:31.494
Introduced her with the next slide second, so I'll.

00:06:31.494 --> 00:06:32.884
pass it back to you, Andrew.

00:06:37.564 --> 00:06:41.014
So this is doctor Andrew Bradford, she's.

00:06:41.014 --> 00:06:44.314
unfortunately not available right now to join us, but.

00:06:44.314 --> 00:06:47.694
she wanted to pass on her. Hello and welcome.

00:06:47.694 --> 00:06:51.274
o the undergraduate program, doctor Bradford.

00:06:51.274 --> 00:06:54.404
is an associate professor in the environmental engineering.

00:06:54.404 --> 00:06:57.514
Program an she's involved in.

00:06:57.514 --> 00:07:01.514
upper year Walker Environmental.

00:07:01.514 --> 00:07:05.174
courses like watershed systems and urban water systems.

00:07:05.174 --> 00:07:08.184
She's also a big part of the third year design course.

00:07:08.184 --> 00:07:08.184

00:07:08.254 --> 00:07:11.824
And 3100 so you get to know her then.

00:07:11.824 --> 00:07:14.984
she's also the associate director for undergraduate.

00:07:14.984 --> 00:07:18.204
studies. And that means she looks after the management.

00:07:18.204 --> 00:07:23.404
and curriculum of the undergraduate program. So she.

00:07:23.404 --> 00:07:26.584
unfortunately able to join us. But she says Hello.

00:07:26.584 --> 00:07:29.604
and she'll get snow. You at some point.

00:07:30.464 --> 00:07:33.784
So my name is Andrew Isaac, I'm going.

00:07:33.784 --> 00:07:36.724
to just go through a few of the.

00:07:37.384 --> 00:07:40.794
Specifics for your program that you might be interested in.

00:07:40.794 --> 00:07:43.834
My role as a program counter. I'm a kind of A.

00:07:43.834 --> 00:07:47.034
guidance counselor at the University Level. I help.

00:07:47.034 --> 00:07:52.194
students guide them in the program. Select courses, give.

00:07:52.194 --> 00:07:55.694
you information on how to graduate successfully.

00:07:55.694 --> 00:07:59.354
so the first slide that I'm showing.

00:07:59.354 --> 00:08:02.474

talks about core courses, technical electives.

00:08:02.474 --> 00:08:05.764
and complementary studies. So over the.

00:08:05.764 --> 00:08:08.034
four or five years your program.

00:08:08.234 --> 00:08:11.764
You'll be taking about 20.

00:08:11.764 --> 00:08:15.254
0, three, 24 or maybe actually.

00:08:15.254 --> 00:08:18.264
32 core courses. These are.

00:08:18.264 --> 00:08:21.404
the required courses for your program. They.

00:08:21.404 --> 00:08:24.584
start off with math and physics. Excuse me.

00:08:24.584 --> 00:08:28.044
chemistry and get up into our.

00:08:28.044 --> 00:08:31.164
core engineering courses that are required.

00:08:31.164 --> 00:08:32.764
required for your degree.

00:08:34.664 --> 00:08:38.124
So you want me choice, those are.

00:08:38.124 --> 00:08:41.854
required for your program, and then there's two sections.

00:08:41.854 --> 00:08:45.164
called technical electives and complementary.

00:08:45.164 --> 00:08:48.474
studies electives, and they're all part of the restricted electives.

00:08:48.474 --> 00:08:51.554
package. They're both restricted because you have.

00:08:51.554 --> 00:08:54.594
a choice from certain lists and their electives, meaning you.

00:08:54.594 --> 00:08:57.974
get to choose them. So if you're a mechanical engineer.

00:08:57.974 --> 00:09:01.394
you might want to focus on mechatronics, an you.

00:09:01.394 --> 00:09:04.564

ld take robotics course, that's one of our electives, or micro.

00:09:04.564 --> 00:09:05.884

puter Interfacing.

00:09:06.114 --> 00:09:09.204

Something in your upper years that you can choose to really focus.

00:09:09.204 --> 00:09:12.204

on your area of engineering. What you're interested in.

00:09:12.814 --> 00:09:16.034

The complementary studies. They are not math and.

00:09:16.034 --> 00:09:19.674

science. They are humanities or social science.

00:09:19.674 --> 00:09:22.694

Their environmental stewardship courses, they.

00:09:22.694 --> 00:09:26.074

economics and project management or even a language

00:09:26.074 --> 00:09:29.484

uage course. Students depending on your program.

00:09:29.484 --> 00:09:32.994

you're required to take three or four of these courses.

00:09:32.994 --> 00:09:36.044

and they're required. So the three.

00:09:36.044 --> 00:09:39.124

areas are core courses, technical electives.

00:09:39.124 --> 00:09:41.144

an complementary studies.

00:09:42.634 --> 00:09:45.784

So and will have opportunities for questions. If you have any questions.

00:09:45.784 --> 00:09:46.494

about these.

00:09:47.624 --> 00:09:51.304

Happy end of the presentation. So this.

00:09:51.304 --> 00:09:51.304

00:09:51.854 --> 00:09:55.024

Crazy looking table is.

00:09:55.024 --> 00:09:58.264

a graphical representation of your.

00:09:58.264 --> 00:10:01.704

schedule of studies. So in the calendar.

00:10:01.704 --> 00:10:04.744

undergraduate calendar it lists all the courses that.

00:10:04.744 --> 00:10:07.944

you required to take and what we've done is we've shown.

00:10:07.944 --> 00:10:09.144

them on this.

00:10:10.764 --> 00:10:13.914

A chart and all the ovals.

00:10:13.914 --> 00:10:16.954

represent all your courses and all the lines represent how.

00:10:16.954 --> 00:10:20.334

they're all connected. How the prerequisites work and.

00:10:20.334 --> 00:10:23.434

that you can see there's a lot of lines and a lot of linkages between these.

00:10:23.434 --> 00:10:26.914

courses, and it's really important that you understand.

00:10:26.914 --> 00:10:30.254

how this all works and how some.

00:10:30.254 --> 00:10:33.614

courses are only offered in some semesters and.

00:10:33.614 --> 00:10:36.754

you have to complete the prerequisites before.

00:10:36.754 --> 00:10:39.874

you move on. This one represents computer.

00:10:39.874 --> 00:10:40.734

engineering.

00:10:40.874 --> 00:10:44.314

And the Co op program in the.

00:10:44.314 --> 00:10:47.404

Orange ovals. Hopefully you can see the.

00:10:47.404 --> 00:10:49.464

bottom of the chart but in each.

00:10:50.964 --> 00:10:54.474

You're entering a co op program. You have designated semesters.

00:10:54.474 --> 00:10:58.154

in which you take the Coop. Then we will have the Coop coordinators.

00:10:58.154 --> 00:11:01.294

talking a bit more about the co op program a little bit.

00:11:01.294 --> 00:11:03.054

later on in the presentation.

00:11:04.534 --> 00:11:07.544

So one thing I really want to focus on.

00:11:07.544 --> 00:11:10.604

now is those prerequisites and how they're.

00:11:10.604 --> 00:11:13.804

all linked together, so I'm.

00:11:13.804 --> 00:11:16.974

just zooming in on your first year. These are your first year courses.

00:11:16.974 --> 00:11:16.974

00:11:17.634 --> 00:11:18.524

And.

00:11:20.364 --> 00:11:23.934

You've got hopefully most of you already signed up for your chemistry.

00:11:23.934 --> 00:11:27.354

and your calculus or physics.

00:11:27.354 --> 00:11:30.794

or engineering design course, but you'll notice.

00:11:30.794 --> 00:11:34.324

some lines coming out of calculus and physics so.

00:11:34.324 --> 00:11:34.324

00:11:35.834 --> 00:11:40.204

First year calculus courses linked to three courses.

00:11:40.204 --> 00:11:42.394

in your second semester in the winter semester.

00:11:43.254 --> 00:11:46.544

In order to take those courses, you have to pass math the.

00:11:46.544 --> 00:11:49.884

ulus course. You have to pass physics to move on to mechanics.

00:11:49.884 --> 00:11:53.234

So I would encourage you to remember that.

00:11:53.234 --> 00:11:56.484

and tell your friends that these are key courses that you.

00:11:56.484 --> 00:12:00.744

need to work really hard onto get.

00:12:00.744 --> 00:12:03.374

through. Not saying that they won't be.

00:12:04.874 --> 00:12:08.034

They're not going to sing their extremely hard, but they will be a challenge.

00:12:08.034 --> 00:12:11.754

there. Step up from your high school level calculus.

00:12:11.754 --> 00:12:15.784

and I really encourage you to get.

00:12:15.784 --> 00:12:19.194

some extra help if you're struggling in the calculus or physics area.

00:12:19.194 --> 00:12:22.554

We have resources to help you, but I want to emphasize.

00:12:22.554 --> 00:12:25.564

the importance of those prerequisites.

00:12:25.564 --> 00:12:25.564

00:12:29.794 --> 00:12:33.524

And now I'm going to move.

00:12:33.524 --> 00:12:37.104

on to The Bachelor Engineering program requirements.

00:12:37.104 --> 00:12:40.304

So we're going down on ice rd there.

00:12:40.304 --> 00:12:43.504

we have a 60 minimum. Hopefully I'm wondering.

00:12:43.504 --> 00:12:46.884

if my slides getting cut off at the bottom. Anyway, it says.

00:12:46.884 --> 00:12:50.104

BNJ program requirements. So what this means?

00:12:50.104 --> 00:12:53.444

is to graduate with your bachelor engineering.

00:12:53.444 --> 00:12:56.624

You need to have a 60%.

00:12:56.624 --> 00:13:00.894

overall cumulative average, so all your courses averaged over.

00:13:00.894 --> 00:13:00.894

00:13:01.034 --> 00:13:04.374

The four or five years you need to graduate with 60%.

00:13:04.374 --> 00:13:04.374

00:13:05.004 --> 00:13:08.224

And you need a 60% average.

00:13:08.224 --> 00:13:11.544

in all your engineering courses, so those are all with the prefix.

00:13:11.544 --> 00:13:14.604

ENGG. You need a 60%.

00:13:14.604 --> 00:13:17.844

percent average in order to get into your third year.

00:13:17.844 --> 00:13:21.374

design course an your 4th year design course.

00:13:21.374 --> 00:13:24.714

So you should be monitoring your average in.

00:13:24.714 --> 00:13:28.324

your NGG courses to make.

00:13:28.324 --> 00:13:31.384

sure you qualify. Otherwise you'll have to wait.

00:13:31.384 --> 00:13:34.304

to take that course until you get that average up.

00:13:34.974 --> 00:13:38.144

And the 16 is also a key level.

00:13:38.144 --> 00:13:41.454

of if you are on probation or not. If your cumulative average.

00:13:41.454 --> 00:13:45.204

goes below 60, then you'll go on probation.

00:13:45.204 --> 00:13:48.534

at the university. And if you can't achieve.

00:13:48.534 --> 00:13:51.554

a 60% in the following semester, then.

00:13:51.554 --> 00:13:54.594

you are removed as a student, so 60.

00:13:54.594 --> 00:13:57.654

is a key number to remember to maintain.

00:13:57.654 --> 00:14:00.894

that and obviously go above that

00:14:00.894 --> 00:14:02.474

in your program.

00:14:04.744 --> 00:14:08.524

This is what your first semester should be looking like for.

00:14:08.524 --> 00:14:09.354

your courses.

00:14:10.264 --> 00:14:13.524

If you haven't signed up for your first.

00:14:13.524 --> 00:14:16.624

year courses yet, please come in contact with.

00:14:16.624 --> 00:14:18.714

the program counseling office.

00:14:19.504 --> 00:14:22.754

But your first semester should look like general.

00:14:22.754 --> 00:14:25.954

Chemistry Chem 1040 engineering design.

00:14:25.954 --> 00:14:28.964

one Angela and hundred calculus one.

00:14:28.964 --> 00:14:32.504

math 1200 and physics with applications physics 11:30.

00:14:32.504 --> 00:14:32.504

00:14:33.274 --> 00:14:36.554

So there is a common first year but.

00:14:36.554 --> 00:14:39.594

there is some slight variations depending on the program.

00:14:39.594 --> 00:14:39.594

00:14:41.274 --> 00:14:45.944

If you are in Computer Anet ES and see.

00:14:45.944 --> 00:14:45.944

00:14:46.684 --> 00:14:49.864

Or mechanical undeclared. You're also taking a programming.

00:14:49.864 --> 00:14:53.284

course if your computer nice and see.

00:14:53.284 --> 00:14:57.004

you're taking sis 1300 if you're in mechanical.

00:14:57.004 --> 00:15:00.364

or undeclared, you're taking sis 1500.

00:15:00.364 --> 00:15:03.524

and the others would be taking enge.

00:15:03.524 --> 00:15:06.764

1500, which is a engineering analysis course so.

00:15:06.764 --> 00:15:09.914

that is what your first year should be.

00:15:09.914 --> 00:15:12.944

Some students are coming in with transfer credits. It might look a.

00:15:12.944 --> 00:15:16.014

little different, but if you're just coming in from high school.

00:15:16.014 --> 00:15:17.764

that's where your first semester.

00:15:18.054 --> 00:15:21.174

Be for.

00:15:21.174 --> 00:15:23.464

the coming fall semester.

00:15:25.224 --> 00:15:29.194

Right now I'm going to introduce.

00:15:29.194 --> 00:15:32.374

you to a couple of your instructors for the coming.

00:15:32.374 --> 00:15:35.994

year or coming semester first.

00:15:35.994 --> 00:15:39.234

we have Doctor Mihai Nica, he's your.

00:15:39.234 --> 00:15:42.334

first year calculus course and you're going to love calculus.

00:15:42.334 --> 00:15:45.434

and he's going to be a great instructor for it, but.

00:15:45.434 --> 00:15:48.814

I'll let him just say a brief hello to you are.

00:15:48.814 --> 00:15:52.094

you on the line Doctor Nica? Yeah, I'm right here, can you?

00:15:52.094 --> 00:15:53.304

ar and see me OK.

00:15:55.454 --> 00:15:58.784

We're good, so I just wanted to.

00:15:58.784 --> 00:16:02.184

say hi to everybody. So I'm mihai nica.

00:16:02.184 --> 00:16:05.224

I'm going to be teaching calculus one I think it's really fun course like I like.

00:16:05.224 --> 00:16:08.524

Calculus a lot. I think some students have a hard time. They have a bad impression.

00:16:08.524 --> 00:16:11.614

of calculus coming out of high school and I we'll hopefully will change.

00:16:11.614 --> 00:16:13.004

your mind by the end of the year.

00:16:13.354 --> 00:16:16.614

The one thing I do want to say is I want to emphasize what?

00:16:16.614 --> 00:16:19.754

Andrew was saying earlier about prerequisites, so calculus.

00:16:19.754 --> 00:16:23.124

one I think is really the trunk of the tree when it comes to math courses.

00:16:23.124 --> 00:16:26.694

So all the other math courses you're going to take are going to sort of rely on.

00:16:26.694 --> 00:16:30.184

knowing the calculus. One material really backwards.

00:16:30.184 --> 00:16:33.294

backwards and forwards and it is the kind of thing where by the time you finish calculus

00:16:33.294 --> 00:16:36.394

say all the stuff we do. The beginning of term that was so easy like.

00:16:36.394 --> 00:16:39.574

sy like now I know it really well but at the time it feels hard

00:16:39.574 --> 00:16:42.694

th putting in the work in Calc one so that when you take.

00:16:42.694 --> 00:16:43.974
the next math course and the.

00:16:44.034 --> 00:16:47.204
Math course after that you really are have a solid background to put everything.

00:16:47.204 --> 00:16:50.364
on the same thing with a lot of engineering courses like those

00:16:50.364 --> 00:16:53.964
are more specific applications and a lot of them rely on sort of a general.

00:16:53.964 --> 00:16:57.344
knowledge that you pick up in calculus one so.

00:16:57.344 --> 00:17:01.474
I'm really looking forward to the chorus and hope you guys are 2 I don't

00:17:01.474 --> 00:17:05.684
on't really have much else to say. I'll see you guys on Friday anyway and we'll get.

00:17:05.684 --> 00:17:07.094
into the details that.

00:17:08.834 --> 00:17:11.884
Great, thanks very much doctor Anika feel.

00:17:11.884 --> 00:17:14.884
ree to ask a lot of questions.

00:17:16.254 --> 00:17:19.264
Get extra help if you are a little rusty with.

00:17:19.264 --> 00:17:22.664
your calculus. This semester goes quickly, so it encourage you.

00:17:22.664 --> 00:17:23.714
to just.

00:17:25.124 --> 00:17:28.364
Jump in there quickly and review anything.

00:17:28.364 --> 00:17:31.514
you need for your calculus course now.

00:17:31.514 --> 00:17:34.994
I'm going to introduce doctor John Donald.

00:17:34.994 --> 00:17:38.554
and doctor ryan clamor. They are the instructors for.

00:17:38.554 --> 00:17:41.144
the first year design course.

00:17:42.164 --> 00:17:45.414

And they're just going to give you a brief introduction to what the.

00:17:45.414 --> 00:17:48.594

first year design course all about. An what it means for the coming.

00:17:48.594 --> 00:17:51.934

semester taking it online so I'll let john

00:17:51.934 --> 00:17:53.634

ohn and Ryan Ticket.

00:17:55.934 --> 00:17:58.964

Thank you Andrew, and there's Ryan as well so.

00:17:58.964 --> 00:18:02.324

I'm John Donald. One of your professors in engineering 1100.

00:18:02.324 --> 00:18:02.324

00:18:03.224 --> 00:18:04.154

And Ryan.

00:18:05.394 --> 00:18:06.214

Hello everyone.

00:18:07.804 --> 00:18:12.054

Is Ryan clamor another person engineering under yeah?

00:18:12.054 --> 00:18:12.054

00:18:13.854 --> 00:18:17.044

You as a give it a little bit of a description. John and I can add.

00:18:17.044 --> 00:18:20.204

a little bit of a description. Yeah, so. Engineering 1100 it's a.

00:18:20.204 --> 00:18:23.584

fun course. There's lots of pieces to it.

00:18:23.584 --> 00:18:26.854

The three major pieces are semester long.

00:18:26.854 --> 00:18:29.944

team based project. It's a challenge.

00:18:29.944 --> 00:18:33.384

that you use, you develop your engineering design skills.

00:18:33.384 --> 00:18:36.664

an you learn software and computer.

00:18:36.664 --> 00:18:39.774
labs. Primarily 3D and 2D.

00:18:39.774 --> 00:18:42.944
software to represent designs and then.

00:18:42.944 --> 00:18:44.184
you learn about The Professor.

00:18:44.234 --> 00:18:47.634
Profession as Doctor Runciman was saying at the.

00:18:47.634 --> 00:18:50.874
beginning of the call.

00:18:50.874 --> 00:18:54.484
as an engineer, we are in a particularly.

00:18:54.484 --> 00:18:57.504
regulated profession and there is a lot.

00:18:57.504 --> 00:19:00.764
associated with the profession as well as just the mindset.

00:19:00.764 --> 00:19:03.914
of becoming an engineer. So this course really starts you off.

00:19:03.914 --> 00:19:07.264
on your way and its course that helps integrate.

00:19:07.264 --> 00:19:10.354
a lot of the technical learning that you're doing.

00:19:10.354 --> 00:19:12.984
in your degree as a whole.

00:19:14.284 --> 00:19:17.474
Now for getting started.

00:19:17.474 --> 00:19:20.714
Maybe I'll turn it over to Ryan. I'll let Ryan. We're going to tag team.

00:19:20.714 --> 00:19:23.984
also masters, so I'd like him to.

00:19:23.984 --> 00:19:26.994
have a chance to add something to and then we can talk a little bit about.

00:19:26.994 --> 00:19:30.314
some of the logistics fix, John.

00:19:30.314 --> 00:19:33.564
s fix john so there's certainly

00:19:33.564 --> 00:19:36.654

e to create a hands-on group project that.

00:19:36.654 --> 00:19:40.094
can be delivered remotely, so hopefully we've got something.

00:19:40.094 --> 00:19:43.304
that will be engaging and help.

00:19:43.304 --> 00:19:44.874
you practice some of the.

00:19:45.354 --> 00:19:49.064
Engineering principles and design ideas I.

00:19:49.064 --> 00:19:52.184
guess to offer some tips, perhaps to.

00:19:52.184 --> 00:19:56.024
throw in here before I get into some of the logistics it's.

00:19:56.024 --> 00:19:59.104
important if you're finding yourself you needing.

00:19:59.104 --> 00:20:02.384
some help to do that early. There's lots of supports.

00:20:02.384 --> 00:20:05.504
available. There's an engineering peer helpers which.

00:20:05.504 --> 00:20:09.484
I'm involved with and they're upper year undergraduate.

00:20:09.484 --> 00:20:13.484
students that have gone through all this and they are available.

00:20:13.484 --> 00:20:15.934
to help with one on one sessions and group.

00:20:15.984 --> 00:20:19.664
Study sessions as so keep your.

00:20:19.664 --> 00:20:22.994
eyes open for those the other thing.

00:20:22.994 --> 00:20:26.104
it's important to stay connected as well can.

00:20:26.104 --> 00:20:29.214
be your own best teachers, so I encourage you.

00:20:29.214 --> 00:20:32.274
to try to connect with your classmates so that.

00:20:32.274 --> 00:20:35.414
you can work through the course is together.

00:20:35.414 --> 00:20:38.674
and I'll try to facilitate some of that as well so.

00:20:38.674 --> 00:20:41.754
just because something is different.

00:20:41.754 --> 00:20:45.614
it's not necessarily bad, but certainly entering into.

00:20:45.614 --> 00:20:45.614

00:20:46.674 --> 00:20:50.484
Some different times here, so when it said I.

00:20:50.484 --> 00:20:53.604
g for the days of precedented times that.

00:20:53.604 --> 00:20:57.344
these unprecedented times are getting kind of old. But we're.

00:20:57.344 --> 00:21:00.524
here to help you out and meant to help you get.

00:21:00.524 --> 00:21:03.624
through this and hope that set you on a.

00:21:03.624 --> 00:21:07.354
good path to rewarding engineering careers.

00:21:07.354 --> 00:21:07.354

00:21:08.984 --> 00:21:12.024
So I need help with that. Then John can go into the first.

00:21:12.024 --> 00:21:15.384
step. So what we're going to do this week for 1100, OK?

00:21:15.384 --> 00:21:18.564
so as I said, the course has a lot of pieces and in addition.

00:21:18.564 --> 00:21:21.584
to what to what Doctor Clemmer?

00:21:21.584 --> 00:21:25.764
was speaking about, it will be important for you to be organized. So the.

00:21:25.764 --> 00:21:28.984
first sort of organized orientation meetings will happen this.

00:21:28.984 --> 00:21:32.194
ctions one and 2 at

00:21:32.194 --> 00:21:35.924

and two at 8:30 have a computer lab assigned.

00:21:35.924 --> 00:21:38.944

and so we've sent out an email already.

00:21:38.944 --> 00:21:42.004

We'd like you to join us. I think it's really important for you to join us at.

00:21:42.004 --> 00:21:43.344

that first lab, so if you're in.

00:21:43.444 --> 00:21:46.954

Section one or two that happens at.

00:21:46.954 --> 00:21:49.974

8:30 on Thursday morning this weekend if you're in.

00:21:49.974 --> 00:21:53.444

sections three and four or three or four.

00:21:53.444 --> 00:21:56.584

that happens at 8:30 on Friday and.

00:21:56.584 --> 00:21:59.644

like I said, You should have received an email. So if you haven't received.

00:21:59.644 --> 00:22:03.254

an email yet, make sure your check your U of G.

00:22:03.254 --> 00:22:06.954

mail address to see the instructions for that.

00:22:06.954 --> 00:22:10.074

session is going to be conducted on zoom and.

00:22:10.074 --> 00:22:13.534

we will go through and in more detail what you need.

00:22:13.534 --> 00:22:13.534

00:22:13.674 --> 00:22:17.124

In order to be ready for the course, OK now.

00:22:17.124 --> 00:22:20.174

e've had some questions around what section am I in

00:22:20.174 --> 00:22:23.284

in? OK, so you can know what to show up. So if you look.

00:22:23.284 --> 00:22:26.884

at your timetable, your course will be represented.

00:22:26.884 --> 00:22:30.324

some numbers and some

00:22:30.324 --> 00:22:33.684
ome letters, so this course is ENGG star 11.

00:22:33.684 --> 00:22:36.774
0. And then after that you'll see a star and.

00:22:36.774 --> 00:22:39.984
010 either 010.

00:22:39.984 --> 00:22:43.904
01020103.

00:22:43.904 --> 00:22:43.904

00:22:43.954 --> 00:22:46.984
Or 0104 so that last number. So if you're in.

00:22:46.984 --> 00:22:50.124
0102, for example, you are.

00:22:50.124 --> 00:22:53.224
in Section 2 OK, and then it is also on your.

00:22:53.224 --> 00:22:56.334
timetable. OK, so make sure you would join us at.

00:22:56.334 --> 00:22:59.464
those meetings this week, and then we will.

00:22:59.464 --> 00:23:02.484
set you up to start the week one lecture.

00:23:02.484 --> 00:23:05.944
in the week one labs which happened starting September 15th.

00:23:05.944 --> 00:23:05.944

00:23:07.634 --> 00:23:10.724
All the lectures this year or on zoom so it's.

00:23:10.724 --> 00:23:14.064
an online course. They'll be on a platform called.

00:23:14.064 --> 00:23:17.364
Zoom and the other major piece.

00:23:17.364 --> 00:23:20.604
of interaction or inactivity that you have.

00:23:20.604 --> 00:23:24.244
is what we call course. Link here at the University of Guelph. You've probably.

00:23:24.244 --> 00:23:27.984

heard about this already, but engineering 1100.

00:23:27.984 --> 00:23:31.244

the zoom connections are on that.

00:23:31.244 --> 00:23:34.884

course link course and again the instructions are in your email.

00:23:34.884 --> 00:23:38.284

but if you'd like to make sure you go to course, link it oriented.

00:23:38.284 --> 00:23:40.094

an connect to your section.

00:23:40.184 --> 00:23:43.454

Orientation lab on Thursday.

00:23:43.454 --> 00:23:44.234

or Friday.

00:23:45.044 --> 00:23:48.694

Finally, for those that are wondering about the project.

00:23:48.694 --> 00:23:51.724

we're going to be using something called Microsoft teams.

00:23:51.724 --> 00:23:54.934

for the project sessions, and again, we'll have to go through that.

00:23:54.934 --> 00:23:57.974

when we get together in the classes, OK?

00:23:57.974 --> 00:24:00.984

so I'll leave it at where I know Ryan and I are very.

00:24:00.984 --> 00:24:04.044

very excited to be launching this online semester

00:24:04.044 --> 00:24:07.314

ther and working with you again, and.

00:24:07.314 --> 00:24:10.574

if you have any questions now, please put them in the chat.

00:24:10.574 --> 00:24:14.334

Ann Ryan and I will try to answer them or will answer them afterwards.

00:24:14.334 --> 00:24:14.334

00:24:15.214 --> 00:24:18.374

And we will also be able to see you again on Thursday.

00:24:18.374 --> 00:24:19.384
and Friday morning.

00:24:20.524 --> 00:24:23.514
So Ryan, is there anything that I missed that you'd like to add?

00:24:24.494 --> 00:24:27.634
I think you captured everything will guide.

00:24:27.634 --> 00:24:30.934
you through this whole process and our learning together.

00:24:30.934 --> 00:24:34.294
ether but I think will still be able to be

00:24:34.294 --> 00:24:35.604
ssful and have a good time.

00:24:37.164 --> 00:24:39.134
Excellent thanks.

00:24:39.734 --> 00:24:42.984
hey thanks very much I'm going to move on

00:24:42.984 --> 00:24:46.164
n to slide talking about academic.

00:24:46.164 --> 00:24:47.644
transition so.

00:24:49.184 --> 00:24:52.194
The slide shows a fish going from a smaller goal to a big.

00:24:52.194 --> 00:24:56.144
bowl. It is a big step up you are.

00:24:56.144 --> 00:24:59.354
in a bigger bowl at the university.

00:24:59.354 --> 00:25:02.484
It's a much faster pace. It's.

00:25:02.484 --> 00:25:06.034
subjects are more challenging and.

00:25:06.034 --> 00:25:09.634
you have to be prepared for this. So some things we

00:25:09.634 --> 00:25:12.704
really tried to emphasize our study skills.

00:25:12.704 --> 00:25:16.234
Some students you have not learned the study skills.

00:25:16.234 --> 00:25:19.554

you need from high school. High school is not maybe a challenge.

00:25:19.554 --> 00:25:20.434
when you did.

00:25:20.494 --> 00:25:23.674
Really, you're able to get into this engineering program.

00:25:23.674 --> 00:25:27.004
but you have to be aware that.

00:25:27.004 --> 00:25:30.214
better study skills are.

00:25:30.214 --> 00:25:33.444
needed. Folk learn to how to focus learning how to take.

00:25:33.444 --> 00:25:36.824
notes on from lectures learning.

00:25:36.824 --> 00:25:40.404
how to really integrate what you've learned during the week review.

00:25:40.404 --> 00:25:43.604
it. Summarize it. Bruh prepared for what's coming up in.

00:25:43.604 --> 00:25:46.934
the following week, how to take notes, that's

00:25:46.934 --> 00:25:50.394
something that you should be learning, and there are resources.

00:25:50.394 --> 00:25:50.394

00:25:50.554 --> 00:25:54.554
Especially through the library, I can help you find.

00:25:54.554 --> 00:25:58.224
these resource is or you can go to the library website. They have workshops.

00:25:58.224 --> 00:26:00.304
and information available.

00:26:00.944 --> 00:26:04.144
Keeping up with the pace of the program.

00:26:04.144 --> 00:26:07.274
your first midterms going to be within say 4 weeks.

00:26:07.274 --> 00:26:10.494
s of the semester starting depending on their course so it goes really

00:26:10.494 --> 00:26:11.104
ally quickly.

00:26:11.914 --> 00:26:15.184
Time management it is.

00:26:15.184 --> 00:26:19.784
going to be different different semester.

00:26:19.784 --> 00:26:23.644
er in terms of being online but you still have to figure

00:26:23.644 --> 00:26:26.904
out how to make time for class, how to make time for studying.

00:26:26.904 --> 00:26:30.004
eating, properly, sleeping, exercise. It was a.

00:26:30.004 --> 00:26:31.664
weird summer wear.

00:26:31.974 --> 00:26:35.284
I struggled.

00:26:35.284 --> 00:26:38.404
to say I haven't been out of the house all day because I live here.

00:26:38.404 --> 00:26:41.484
and work here, so I have to get out and do.

00:26:41.484 --> 00:26:44.494
something else, so make time to get out of the house.

00:26:44.494 --> 00:26:47.784
if you're at home and do something.

00:26:47.784 --> 00:26:52.144
else, sleep properly. It's a really important.

00:26:52.144 --> 00:26:54.774
to be healthy. You have to be healthy through all this.

00:26:55.714 --> 00:26:58.724
We already talked about math fundamentals the 1st.

00:26:58.724 --> 00:27:01.894
st 2 calculus courses are essential courses in the first year.

00:27:01.894 --> 00:27:04.944
and if you do not pass the first one, you can't move on to the.

00:27:04.944 --> 00:27:08.204
second one. And it's good impact your course selection.

00:27:08.204 --> 00:27:11.344
opportunities, so that's important. Get help with your.

00:27:11.344 --> 00:27:13.514

first year calculus if you need it.

00:27:14.924 --> 00:27:18.254

Your expectations for grades some students.

00:27:18.254 --> 00:27:21.774

I mean, you were in a student, but sometimes.

00:27:21.774 --> 00:27:25.154

in the first semester or year.

00:27:25.154 --> 00:27:28.904

drop down to AB or C or lower so

00:27:28.904 --> 00:27:31.974

because it is a much harder program than high school

00:27:31.974 --> 00:27:33.624

school, so be prepared for that.

00:27:34.894 --> 00:27:38.144

and the last thing I want to talk about again was academic academic

00:27:38.144 --> 00:27:41.414

integrity because

00:27:41.414 --> 00:27:44.584

because it is the school takes.

00:27:44.584 --> 00:27:47.644

that very seriously you have to make sure you're doing

00:27:47.644 --> 00:27:50.784

independent work you have to make sure

00:27:50.784 --> 00:27:53.904

what you're you are not using

00:27:53.904 --> 00:27:57.304

one resource is that the instructor has not allowed you to do.

00:27:57.304 --> 00:27:58.384

for your assessments.

00:27:59.384 --> 00:28:01.854

Be aware of that.

00:28:03.104 --> 00:28:03.734

00:28:04.454 --> 00:28:07.814

the need for academic integrity through all of what you do

00:28:07.814 --> 00:28:11.094

it's not not just for here but it's for

00:28:11.094 --> 00:28:14.194

what you need to do this

00:28:14.194 --> 00:28:17.414

integrity is what you need to present to yourself as a professional

00:28:17.414 --> 00:28:20.784

engineer in the future it's what society expects

00:28:20.784 --> 00:28:23.414

So make take that seriously.

00:28:26.574 --> 00:28:30.724

So here's a picture of myself in the Centre, Catherine.

00:28:30.724 --> 00:28:33.844

clean is in the left and kim thompson is on the

00:28:33.844 --> 00:28:37.804

right we are your engineering program counselors we

00:28:37.804 --> 00:28:41.524

are available to talk about struggles

00:28:41.524 --> 00:28:42.884

les you might be going through.

00:28:44.284 --> 00:28:47.574

how do I select your courses in the next 2 weeks will be having

00:28:47.574 --> 00:28:50.594

online drop ins usually you

00:28:50.594 --> 00:28:54.754

ou can drop by our office, but our office is closed so we're.

00:28:54.754 --> 00:28:57.784

starting up an online drop-in where.

00:28:57.784 --> 00:29:00.874

you sign in and we can talk through teams or.

00:29:00.874 --> 00:29:02.064

ough a Phone call?

00:29:02.694 --> 00:29:06.464

uh but we're here throughout the year talking

00:29:06.464 --> 00:29:09.584

lp guide you through the rules and procedures. Make sure you're on track with.

00:29:09.584 --> 00:29:12.824

your program. If you're struggling through.

00:29:12.824 --> 00:29:15.394
academics will guide you there.

00:29:16.744 --> 00:29:19.774
and hopefully will provide some hope when this semester has been difficult

00:29:19.774 --> 00:29:22.934
and get you back on track so please please come

00:29:22.934 --> 00:29:25.524
alk to us. We are happy to chat.

00:29:26.514 --> 00:29:29.864
So now I'm going.

00:29:29.864 --> 00:29:33.304
na introduce lea davis she's a third year

00:29:33.304 --> 00:29:36.484
iomedical Engineering Co op. She's also involved.

00:29:36.484 --> 00:29:40.174
in the peer helper program and

00:29:40.174 --> 00:29:42.264
she's going to talk about that.

00:29:46.064 --> 00:29:49.174
um so welcome to golf engineering it's really exciting

00:29:49.174 --> 00:29:52.294
for you guys. And yeah, I'm excited to talk about.

00:29:52.294 --> 00:29:55.894
the quad, an engineering peer helper program today with everyone.

00:29:55.894 --> 00:29:59.424
So again I'm a third year bio med and Co op students.

00:29:59.424 --> 00:30:02.874
so I've been in your position and I understand it can be stressful so

00:30:02.874 --> 00:30:05.924
I'm really excited to talk about these two resources to help you out.

00:30:05.924 --> 00:30:09.154
day so hopefully you've accessed the quad already

00:30:09.154 --> 00:30:12.414
ady. It is on course link as mentioned all of your phone courses.

00:30:12.414 --> 00:30:15.914
will likely be on there. You might have Moodle persist but.

00:30:16.154 --> 00:30:19.284

it's already you have access to it it will be continuing

00:30:19.284 --> 00:30:22.684

all 2020, so all of the resources that are on it currently.

00:30:22.684 --> 00:30:25.804

will remain and you can refer to them at anytime and.

00:30:25.804 --> 00:30:29.144

that includes like the math preparation physics so if anytime

00:30:29.144 --> 00:30:32.734

ing a little bit more of those basics, you can go back to that website.

00:30:32.734 --> 00:30:35.884

at website new content will be added to it in the fall and again

00:30:35.884 --> 00:30:39.284

sessions will run pay attention to that weekly calendar

00:30:39.284 --> 00:30:40.584

those announcements.

00:30:41.424 --> 00:30:44.474

I'm really excited to also mention that our mentor ship teams on

00:30:44.474 --> 00:30:47.484

it will be continuing so keep posing then those

00:30:47.484 --> 00:30:50.674

discussion boards and you can meet other classmates that way

00:30:50.674 --> 00:30:53.854

they're all over your end students so they're really excited to

00:30:53.854 --> 00:30:57.144

help you out and give you their advice and again

00:30:57.144 --> 00:31:00.194

again, this website will just focus on engineering community academic.

00:31:00.194 --> 00:31:03.634

preparedness students that have some trip. An online resource is.

00:31:03.634 --> 00:31:07.114

so if you have any questions about one of those four areas.

00:31:07.114 --> 00:31:10.254

I highly recommend you go visit it at the resource tab.

00:31:10.254 --> 00:31:10.314

00:31:11.414 --> 00:31:14.664

So the next thing I'm really excited to talk about is the Engineering Peer.

00:31:14.664 --> 00:31:18.054

Helper Program. I'm a peer helper and.

00:31:18.054 --> 00:31:21.214

I've done it. I guess for a little while now and it's all.

00:31:21.214 --> 00:31:24.294

going virtual this semester, so we worked hard to.

00:31:24.294 --> 00:31:27.674

this program online to continue helping you guys out

00:31:27.674 --> 00:31:30.794

out. Peer helpers are experienced and trained engineering.

00:31:30.794 --> 00:31:34.194

students who are here to help you out and what the.

00:31:34.194 --> 00:31:37.414

program basically does is how throw up in an appointment.

00:31:37.414 --> 00:31:40.564

study groups to help you develop your problem solving skills so.

00:31:40.564 --> 00:31:44.134

they'll help with specific classes. Sometimes will run.

00:31:44.134 --> 00:31:44.134

00:31:44.194 --> 00:31:48.324

Unlock midterm or study session for Entriiken 100 Orange 1210.

00:31:48.324 --> 00:31:51.504

10 but really, a lot of our sessions are general so you can apply.

00:31:51.504 --> 00:31:54.904

them to any cores, especially engineering courses you.

00:31:54.904 --> 00:31:58.004

can also meet one one with engineering peer helpers and get.

00:31:58.004 --> 00:32:01.264

advice and ideas on how to handle engineering.

00:32:01.264 --> 00:32:04.614

courses, how to manage the busy courseload. Obviously it.

00:32:04.614 --> 00:32:07.944

little bit more difficult than high school so

00:32:07.944 --> 00:32:11.704

will tell you how to make the most of your study time so those consultations

00:32:11.704 --> 00:32:15.164

are really important you can book them online at our website

00:32:15.164 --> 00:32:16.334

website if you just Google.

00:32:16.674 --> 00:32:19.684

Equal times during peer helpers you'll find it. It's actually under.

00:32:19.684 --> 00:32:20.834

the school of engineering.

00:32:21.494 --> 00:32:25.044

And that's a great website. It also has in print.

00:32:25.044 --> 00:32:28.114

wnloadable resource is such.

00:32:28.114 --> 00:32:31.174

an matlab problem solving time management so.

00:32:31.174 --> 00:32:32.964

I really recommend you click the quick links.

00:32:34.574 --> 00:32:37.764

We have Facebook. It's welp engineering peer helpers.

00:32:37.764 --> 00:32:41.074

pers will be updating what sessions an activities events will be running.

00:32:41.074 --> 00:32:44.324

g this semester are instagram is end peers

00:32:44.324 --> 00:32:47.864

underscore uog so again if you want to get those updates

00:32:47.864 --> 00:32:51.434

were really glad to provide those on our social media platforms.

00:32:51.434 --> 00:32:54.564

and will be offering many workshops this semester you might

00:32:54.564 --> 00:32:58.024

see us drop in in one of your classes possibly angela 100

00:32:58.024 --> 00:33:01.404

I guess it's going to be a surprise but if you have any questions

00:33:01.404 --> 00:33:04.484

about the program or you want to make an appointment, another thing you.

00:33:04.484 --> 00:33:04.864

could do is.

00:33:05.614 --> 00:33:08.824
Engineers at uoguelph.ca and that.

00:33:08.824 --> 00:33:11.994
was a lot of information. I will post it on. The quad will be working.

00:33:11.994 --> 00:33:15.384
in synchronous with one another this semester, so don't.

00:33:15.384 --> 00:33:18.674
be alarmed. I'll post it there today. We actually.

00:33:18.674 --> 00:33:22.044
o have an engineering peer helper oh week event and is that one

00:33:22.044 --> 00:33:25.064
PM it's a panel so we'll have doctor

00:33:25.064 --> 00:33:28.234
clemmer who was the faculty advisor heather mitchell he's a

00:33:28.234 --> 00:33:31.404
learning specialist as well as many engineering

00:33:31.404 --> 00:33:34.724
ing peer helpers to just like what the program does.

00:33:34.724 --> 00:33:36.784
how we can help you out this semester so.

00:33:37.634 --> 00:33:40.814
That Microsoft live teams is on the quad.

00:33:40.814 --> 00:33:44.174
or if in the engineering society's instagram bio so

00:33:44.174 --> 00:33:47.494
we just wanted to wish you all a good oh weeks and

00:33:47.494 --> 00:33:49.714
ave a good first week of classes.

00:33:52.894 --> 00:33:54.484
Great, thanks very much, so yeah.

00:33:55.214 --> 00:33:58.724
OK I think we're about halfway through but one I have one more

00:33:58.724 --> 00:34:01.824
slide talking about wellness and then we're going to go

00:34:01.824 --> 00:34:05.654
into the coop section where we have career advisor

00:34:05.654 --> 00:34:08.924

and Co coordinators or some of the call coordinators for.

00:34:08.924 --> 00:34:12.004
the Engineering Co op program so.

00:34:12.004 --> 00:34:15.164
thanks. Thanks for everybody who's listening in.

00:34:15.164 --> 00:34:18.184
If you do have questions, you can put them in the chat and.

00:34:18.184 --> 00:34:21.404
people respond to the more of the time where.

00:34:21.404 --> 00:34:24.454
you can post them at the end and.

00:34:24.454 --> 00:34:25.124
we can.

00:34:25.174 --> 00:34:28.084
Good answer your questions right at the end, so there's lots of time left.

00:34:28.914 --> 00:34:32.024
Wellness student wellness it's.

00:34:32.024 --> 00:34:35.644
s so important to I talked about it already in terms of being

00:34:35.644 --> 00:34:39.304
well in terms of eating, sleeping and.

00:34:39.304 --> 00:34:42.864
getting exercise, but we have resources on.

00:34:42.864 --> 00:34:46.224
campus on campus and online.

00:34:46.224 --> 00:34:49.684
or making sure your OK and supporting you

00:34:49.684 --> 00:34:52.924
u. One of 'em is accessibility services.

00:34:52.924 --> 00:34:55.944
so if that's important, if you.

00:34:55.944 --> 00:34:59.604
you have an iep or if you've been.

00:34:59.604 --> 00:34:59.604

00:34:59.824 --> 00:35:03.154
Designated with a and you need supports.

00:35:03.154 --> 00:35:06.494
for your courses. Accessibility services.

00:35:06.494 --> 00:35:09.834
is who you need to contact to get.

00:35:09.834 --> 00:35:13.154
you lined up with them. With a counselor at accessibility.

00:35:13.154 --> 00:35:16.194
sibility services and see what supports can be

00:35:16.194 --> 00:35:19.954
provided that's important to do as soon as possible

00:35:19.954 --> 00:35:23.014
to ensure they understand your

00:35:23.014 --> 00:35:26.134
needs and can get it set up with any of the courses

00:35:26.134 --> 00:35:29.514
that you're taking counseling services available

00:35:29.514 --> 00:35:30.534
ve.

00:35:30.734 --> 00:35:34.464
online video and phone conversations

00:35:34.464 --> 00:35:38.294
If you're struggling with anxiety and stress, if.

00:35:38.294 --> 00:35:41.304
u're having a really rough time

00:35:41.304 --> 00:35:44.344
me through the program and even.

00:35:44.344 --> 00:35:47.424
personal problems, they have a lot of counselors.

00:35:47.424 --> 00:35:50.504
available. They have dropped in.

00:35:50.504 --> 00:35:53.834
bookings available throughout the week.

00:35:53.834 --> 00:35:57.824
so I would encourage you to not be.

00:35:57.824 --> 00:36:00.984
be afraid about seeking out counseling services if.

00:36:00.984 --> 00:36:02.094
you're struggling.

00:36:02.964 --> 00:36:07.304
There's the wellness education center just overall.

00:36:07.304 --> 00:36:10.524
it's a center for providing.

00:36:10.524 --> 00:36:13.814
information about being being wells of student.

00:36:13.814 --> 00:36:13.814

00:36:15.234 --> 00:36:18.234
How to be healthy? How to take care of yourself better?

00:36:18.834 --> 00:36:21.874
There is also be health and performance center.

00:36:21.874 --> 00:36:24.904
They have sports medicine nutritionist.

00:36:24.904 --> 00:36:28.164
ts, physiotherapists, chiropractors. Currently, there's.

00:36:28.164 --> 00:36:31.534
imited hours, but they do have practitioners.

00:36:31.534 --> 00:36:35.064
he clinic there's obviously protocols in place

00:36:35.064 --> 00:36:38.114
place, but they are available on campus and.

00:36:38.114 --> 00:36:41.124
then obviously health services. We have physicians and.

00:36:41.124 --> 00:36:44.304
services on campus to see

00:36:44.304 --> 00:36:47.324
to see you in person. For appointments that are.

00:36:47.324 --> 00:36:48.524
deemed essential.

00:36:49.974 --> 00:36:53.624
You can also go see your family doctor, but we do have those services.

00:36:53.624 --> 00:36:55.484
available on campus as well.

00:36:57.344 --> 00:37:00.394

That is kind of the end of the academic.

00:37:00.394 --> 00:37:03.514
side of the presentation, right?

00:37:03.514 --> 00:37:08.554
now I'm going to allow the Kuririn Coop coordinators.

00:37:08.554 --> 00:37:11.714
to share with you the exciting work they're doing.

00:37:11.714 --> 00:37:15.054
They'll start with Louisa Smith, whose career advisor.

00:37:15.054 --> 00:37:18.184
for our college Louisa.

00:37:18.184 --> 00:37:18.184

00:37:21.654 --> 00:37:24.764
Hello everyone so.

00:37:24.764 --> 00:37:27.984
thanks so much for having me here and really excited.

00:37:27.984 --> 00:37:31.124
to chat with you folks today. I know many of.

00:37:31.124 --> 00:37:34.204
you might be already thinking about your first job.

00:37:34.204 --> 00:37:37.364
after you graduate or even your first coop term.

00:37:37.364 --> 00:37:40.404
So really happy to be able to help support you.

00:37:40.404 --> 00:37:43.844
through whatever current transition, do whatever.

00:37:43.844 --> 00:37:46.924
o whatever career transition you go through so in terms of it

00:37:46.924 --> 00:37:50.324
and what career advisers can do for you.

00:37:50.324 --> 00:37:52.834
do for you. My goal really is to support.

00:37:52.884 --> 00:37:56.234
We also train and really just lead you as a student.

00:37:56.234 --> 00:37:59.264
and also as an alumni two as you.

00:37:59.264 --> 00:38:02.684
make clear decisions. So my goal.

00:38:02.684 --> 00:38:06.194
really is to give you some job search skills.

00:38:06.194 --> 00:38:09.534
helping assist you to figure out further.

00:38:09.534 --> 00:38:12.734
education planning and really help you.

00:38:12.734 --> 00:38:15.874
kind of navigate these different employment opportunities that.

00:38:15.874 --> 00:38:19.254
come up throughout your undergrad, but also as an alumni.

00:38:19.254 --> 00:38:22.414
so kind of ensures I'm.

00:38:22.414 --> 00:38:26.044
really here to just provide any type of support around careers.

00:38:26.044 --> 00:38:26.044

00:38:26.094 --> 00:38:29.664
This can include things like helping you understand what your unique.

00:38:29.664 --> 00:38:32.764
skill sets are, help figure out further.

00:38:32.764 --> 00:38:35.944
education options if you get to a point in your.

00:38:35.944 --> 00:38:39.344
education where you're thinking, maybe you should pursue a masters.

00:38:39.344 --> 00:38:42.404
or PHD or even change career trajectory's.

00:38:42.404 --> 00:38:45.764
together, and finally just helping you with some stronger.

00:38:45.764 --> 00:38:49.104
job search strategies. So really, anything to do with.

00:38:49.104 --> 00:38:52.504
careers, any questions about careers, any?

00:38:52.504 --> 00:38:55.664
type of navigating when it comes to the job hunt, or.

00:38:55.664 --> 00:38:56.724
nything like that.

00:38:56.774 --> 00:39:00.104
Occur advisor can support you so you.

00:39:00.104 --> 00:39:03.364
should see a career advisor if you're looking for any type of support.

00:39:03.364 --> 00:39:06.524
with a current or upcoming job hunts.

00:39:06.524 --> 00:39:09.764
If you're navigating any future education.

00:39:09.764 --> 00:39:12.904
even if you have a disability and you're looking for a support.

00:39:12.904 --> 00:39:16.594
related to strategies for success in the job, that.

00:39:16.594 --> 00:39:19.924
way if you're looking to explore different.

00:39:19.924 --> 00:39:23.224
career options that exist to you, another.

00:39:23.224 --> 00:39:26.734
common one, you're unsure what you can do with your degree.

00:39:26.734 --> 00:39:26.734

00:39:26.784 --> 00:39:29.814
I know I speak with a lot of students who they're not sure what they.

00:39:29.814 --> 00:39:32.984
can do with their degree, especially engineering.

00:39:32.984 --> 00:39:36.664
Not sure if they want to go into a consulting.

00:39:36.664 --> 00:39:39.694
or any type of career decision that way I'm.

00:39:39.694 --> 00:39:42.834
happy to chat with you and help you kind of navigate that.

00:39:42.834 --> 00:39:46.084
transition. So of course we're not meeting in person.

00:39:46.084 --> 00:39:49.694
right now, unfortunately, but we are available to meet.

00:39:49.694 --> 00:39:52.754

via teams, so if you're curious about how to.

00:39:52.754 --> 00:39:55.854

book an appointment, you'll want to log into your experience.

00:39:55.854 --> 00:39:56.884

golf account.

00:39:56.934 --> 00:40:00.124

So many of you probably haven't logged into their just yet.

00:40:00.124 --> 00:40:03.304

but you'll become very familiar with experience both.

00:40:03.304 --> 00:40:06.624

as you start to navigate your career so.

00:40:06.624 --> 00:40:09.984

experience wealth is the home where you can book appointments.

00:40:09.984 --> 00:40:13.194

with career advisor. It's also a place for you to find.

00:40:13.194 --> 00:40:16.404

jobs, as at their coop jobs or on campus jobs.

00:40:16.404 --> 00:40:19.484

is involved. So really suggests that maybe.

00:40:19.484 --> 00:40:22.584

taking some time when things aren't too busy yet.

00:40:22.584 --> 00:40:25.644

to really familiarize yourself with that platform.

00:40:25.644 --> 00:40:30.074

so you can book some time with me there via the appointments tab.

00:40:30.074 --> 00:40:30.074

00:40:30.124 --> 00:40:33.434

Through experience false. So if you would like to book an appointment.

00:40:33.434 --> 00:40:36.574

to chat about anything at any point, whether it be.

00:40:36.574 --> 00:40:39.684

a week, one of your time at the University of well, for.

00:40:39.684 --> 00:40:42.694

our final week, I'm happy to chat.

00:40:42.694 --> 00:40:45.914

with you about any questions you might have.

00:40:45.914 --> 00:40:49.174

So let's go to the next slide. Will roll learn a bit more.

00:40:49.174 --> 00:40:52.694

about career events that happen so?

00:40:52.694 --> 00:40:55.854

there's a lot of different career events that happen.

00:40:55.854 --> 00:40:58.974

all through the year. For engineering students, you can.

00:40:58.974 --> 00:41:00.624

find out more about these.

00:41:00.674 --> 00:41:04.194

Through experience both as well.

00:41:04.194 --> 00:41:07.524

also could be great to have a look at them through Instagram.

00:41:07.524 --> 00:41:10.644

so our Instagram account for.

00:41:10.644 --> 00:41:13.864

anything to do with careers is.

00:41:13.864 --> 00:41:17.084

EXP wealth, so feel free to give us a follow on.

00:41:17.084 --> 00:41:20.604

n there if you're curious about what events are upcoming

00:41:20.604 --> 00:41:23.644

webinars are happening as well since we do.

00:41:23.644 --> 00:41:26.824

host webinars, thrift year career events are.

00:41:26.824 --> 00:41:29.884

really great way to learn a bit more about what.

00:41:29.884 --> 00:41:31.604

employers are offering.

00:41:31.654 --> 00:41:35.094

Learning a bit more about it's perhaps talent programs.

00:41:35.094 --> 00:41:38.644

that exist, so both there out there in the world of work.

00:41:38.644 --> 00:41:41.684

s also just a great way to learn a bit more about what you could do

00:41:41.684 --> 00:41:45.444
o with your degree as well. So just kind of gaining some additional.

00:41:45.444 --> 00:41:48.454
insights and learning about what options are.

00:41:48.454 --> 00:41:51.564
available to you. So for example, we.

00:41:51.564 --> 00:41:54.744
have coffee chat for engineers happening.

00:41:54.744 --> 00:41:57.944
on September 21st. We also have Amazon.

00:41:57.944 --> 00:42:01.084
to do engineering tech talk in.

00:42:01.084 --> 00:42:02.324
October, so.

00:42:02.424 --> 00:42:05.934
Pictures were any of these. Have a look at them through experience.

00:42:05.934 --> 00:42:09.034
wealth again, these career events are really fantastic.

00:42:09.034 --> 00:42:12.744
way for you to just learn a bit more about what.

00:42:12.744 --> 00:42:15.914
it's like to work as an engineer. What's different pathways?

00:42:15.914 --> 00:42:19.144
are available to you after you graduate as well.

00:42:19.144 --> 00:42:23.384
and even start to learn more about different co op options.

00:42:23.384 --> 00:42:23.964
for you too.

00:42:24.694 --> 00:42:27.704
And lastly, let's talk a bit about job fair.

00:42:27.704 --> 00:42:30.944
so there is many different job fairs.

00:42:30.944 --> 00:42:34.264
that happened throughout the year. Griefing low job?

00:42:34.264 --> 00:42:37.624
fairs? Is there free there a good way?

00:42:37.624 --> 00:42:40.904

for you to practice those networking skills as well you?

00:42:40.904 --> 00:42:44.824

can learn a bit more about employment opportunities before you apply.

00:42:44.824 --> 00:42:48.284

You can learn about which the company from industry.

00:42:48.284 --> 00:42:51.404

representatives that are there. You can learn things like salary.

00:42:51.404 --> 00:42:54.884

expectations, so just a lot of learning available.

00:42:54.884 --> 00:42:55.724

at these jobs.

00:42:55.784 --> 00:42:58.794

Peers as so a job here we.

00:42:58.794 --> 00:43:02.074

have coming up in October is through partners for employment.

00:43:02.074 --> 00:43:05.234

which is University of Guelph Waterloo Lorian.

00:43:05.234 --> 00:43:08.634

n Connais Toga students, learning a bit about some.

00:43:08.634 --> 00:43:11.814

jobs that are available to them so you can learn.

00:43:11.814 --> 00:43:15.254

about against those career opportunities maybe.

00:43:15.254 --> 00:43:18.334

educational requirements that are required for these types of.

00:43:18.334 --> 00:43:21.684

roles too. So great way for you even if you're not.

00:43:21.684 --> 00:43:24.714

looking for a job just yet. Starting to learn about.

00:43:24.714 --> 00:43:26.734

different options that are available to you.

00:43:26.784 --> 00:43:30.254

As so lots to learn with careers.

00:43:30.254 --> 00:43:33.374

lots of talk about with careers. So if you have any questions.

00:43:33.374 --> 00:43:37.434

about careers, feel free to leave them in the queue in a box and.

00:43:37.434 --> 00:43:40.994

I'd be happy to chat with you and help you navigate your career and.

00:43:40.994 --> 00:43:43.404

I'm really excited to working with so many of you folks.

00:43:44.064 --> 00:43:47.334

So I'll pass it off now to Lauren.

00:43:47.334 --> 00:43:51.214

and Catherine will try to get more about a co op.

00:43:51.214 --> 00:43:51.734

as a whole.

00:43:53.994 --> 00:43:57.334

OK, Good morning everyone. Welcome to the university.

00:43:57.334 --> 00:44:01.154

of Guelph. I don't know if anyone could see me yet. My computers also.

00:44:01.154 --> 00:44:01.154

00:44:03.474 --> 00:44:03.994

There we go.

00:44:06.154 --> 00:44:09.614

Yeah, Catherine, neither here to join with you today. We also have our two.

00:44:09.614 --> 00:44:12.954

colleagues air in tire and Sheila Hall, issuer on our team.

00:44:12.954 --> 00:44:12.954

00:44:14.374 --> 00:44:17.584

To tell you a bit about what will you so.

00:44:17.584 --> 00:44:21.414

we work with students to get cooperative rooms were.

00:44:21.414 --> 00:44:24.424

available for appointments much Louise is.

00:44:24.424 --> 00:44:27.864

through experience guelph we set up.

00:44:27.864 --> 00:44:31.284

an employer panels that we have directed.

00:44:31.284 --> 00:44:32.764

to specific programs.

00:44:33.334 --> 00:44:34.034

00:44:34.804 --> 00:44:37.844

One thing that we would recommend that you do a.

00:44:37.844 --> 00:44:41.194

head of getting your first work term.

00:44:41.194 --> 00:44:44.374

would be to get experience in your first summer.

00:44:44.374 --> 00:44:47.974

If possible, do some engineering projects.

00:44:47.974 --> 00:44:50.994

Learn some new languages or courses if you get.

00:44:50.994 --> 00:44:54.914

a summer job in engineering that is.

00:44:54.914 --> 00:44:57.614

something that would be excellent to do.

00:44:58.584 --> 00:45:01.204

Yeah, there's lots of experience on our team.

00:45:02.134 --> 00:45:05.224

We are all kind of available throughout.

00:45:05.224 --> 00:45:08.524

the week, will have our specific days.

00:45:08.524 --> 00:45:12.004

to sit down and have a video chat.

00:45:12.004 --> 00:45:15.164

It's a little bit different obviously than in past years.

00:45:15.164 --> 00:45:18.264

but feel free to send us an email or log.

00:45:18.264 --> 00:45:21.284

on to experience golf and will certainly get in touch and.

00:45:21.284 --> 00:45:24.324

hopefully meet with everyone who is.

00:45:24.324 --> 00:45:28.064

s in Coop and if there are any questions prior.

00:45:28.064 --> 00:45:31.294

to even taking co op 1100, which we'll get into in a second.

00:45:31.294 --> 00:45:31.294

00:45:32.204 --> 00:45:35.624

Please do let us know and we can answer anything.

00:45:35.624 --> 00:45:38.834

hopefully fairly quickly. If not, we can have an extended.

00:45:38.834 --> 00:45:42.034

share so intrusion minds change.

00:45:42.034 --> 00:45:43.084

this slide.

00:45:45.004 --> 00:45:46.174

There we go so.

00:45:47.564 --> 00:45:50.834

Co op 1100 will be in the of next.

00:45:50.834 --> 00:45:54.674

next year. There is still, I guess, a new.

00:45:54.674 --> 00:45:57.914

option that came out this year where Coop 1100.

00:45:57.914 --> 00:46:00.934

can be taken in the summer. Students who.

00:46:00.934 --> 00:46:04.344

signed up and registered and mostly they were engineering students.

00:46:04.344 --> 00:46:07.614

They did exceptional it's.

00:46:07.614 --> 00:46:10.904

one less score. So you basically have to take in the full.

00:46:10.904 --> 00:46:12.944

so it's something to certainly consider.

00:46:13.634 --> 00:46:16.874

From Cooperative Coop 1100 we taking.

00:46:16.874 --> 00:46:20.154

place next fall and then your first work term.

00:46:20.154 --> 00:46:22.874

search will be next the following winter.

00:46:23.734 --> 00:46:26.914

So basically in about a year and a half a.

00:46:26.914 --> 00:46:29.954

little less than half obviously, and.

00:46:29.954 --> 00:46:33.454
ther winter work search will be for the summer.

00:46:33.454 --> 00:46:36.494
of 2022, where you do your first work.

00:46:36.494 --> 00:46:39.594
term. We will hopefully have.

00:46:39.594 --> 00:46:42.754
met you by then an kind of workout where it is.

00:46:42.754 --> 00:46:44.014
that you want to work.

00:46:45.414 --> 00:46:48.424
And provide some realistic expectations for A.

00:46:48.424 --> 00:46:51.444
lot of the work that is out there and.

00:46:51.444 --> 00:46:54.564
kind of how to build your resume. So if you have any questions.

00:46:54.564 --> 00:46:57.744
with regards to what your resume it looks like.

00:46:57.744 --> 00:47:00.824
doing mock interviews, anything like that ourselves as.

00:47:00.824 --> 00:47:03.924
well as Louisa who work in tandem we can.

00:47:03.924 --> 00:47:07.064
certainly assist you with and make sure that your.

00:47:07.064 --> 00:47:10.244
first work term searches a successful one and that.

00:47:10.244 --> 00:47:13.604
the other four are as well. So if.

00:47:13.604 --> 00:47:16.724
there are any questions for us we'd be happy to attach them at the.

00:47:16.724 --> 00:47:17.144
end.

00:47:17.184 --> 00:47:20.234
I think Catherine is going to take the next few slides here.

00:47:20.234 --> 00:47:20.234

00:47:21.954 --> 00:47:25.544

Thanks Lauren. Hi everyone, I'm just going to reiterate.

00:47:25.544 --> 00:47:28.894

something that Lauren just said your first work.

00:47:28.894 --> 00:47:32.104

perience is not until summer 22 but summer

00:47:32.104 --> 00:47:35.164

mer 21 is really important. So what you do?

00:47:35.164 --> 00:47:38.254

next summer in terms of your summer job.

00:47:38.254 --> 00:47:41.304

or summer projects or some of the things that you.

00:47:41.304 --> 00:47:44.494

are looking after outside of work in school are really.

00:47:44.494 --> 00:47:47.974

important as well. When you're looking at your first work term search.

00:47:47.974 --> 00:47:51.074

so gain experience. It would be amazing if you had.

00:47:51.074 --> 00:47:52.224

an engineering job.

00:47:52.274 --> 00:47:55.764

It would also be really great if you picked up a new programming language.

00:47:55.764 --> 00:47:58.864

or got your full license.

00:47:58.864 --> 00:48:01.964

If you're in environmental and water or mechanical, that's.

00:48:01.964 --> 00:48:05.404

really important. Any experience you're gaining next summer.

00:48:05.404 --> 00:48:08.544

is an advantage to you going into your first.

00:48:08.544 --> 00:48:12.144

job search, so definitely work your network connect.

00:48:12.144 --> 00:48:15.194

with people, talk about engineering, talk about what you're

00:48:15.194 --> 00:48:18.584

doing in school, because people will be interested, and that's a great.

00:48:18.584 --> 00:48:21.864

way to build your network using your resource.

00:48:21.864 --> 00:48:22.504
is that.

00:48:22.554 --> 00:48:25.594
We have lots of resource is here in the experiential.

00:48:25.594 --> 00:48:28.704
learning hub Louise and amazing resource you have.

00:48:28.704 --> 00:48:32.184
co op coordinators. We're all going to be working with you to.

00:48:32.184 --> 00:48:35.284
help you with the job search process and so.

00:48:35.284 --> 00:48:38.884
connect with us when we email you opportunities.

00:48:38.884 --> 00:48:42.184
Take a look at them and really participate in those alumni.

00:48:42.184 --> 00:48:45.824
events that can really help you build your network be.

00:48:45.824 --> 00:48:48.964
organized and engaged so our first work term.

00:48:48.964 --> 00:48:52.164
search. It's a busy time. You have lots of courses you.

00:48:52.164 --> 00:48:54.484
have lots of things going on in that semester.

00:48:54.544 --> 00:48:57.784
Staying on top of the job application process is really.

00:48:57.784 --> 00:49:00.804
important. Being organized an engaged.

00:49:00.804 --> 00:49:03.914
and sending applications out to the opportunities.

00:49:03.914 --> 00:49:07.024
an experience Guelph it's really important to be able to.

00:49:07.024 --> 00:49:10.864
follow through with those and be prepared to relocate.

00:49:10.864 --> 00:49:14.144
so they're really amazing jobs an opportunities.

00:49:14.144 --> 00:49:17.194
that are not in the city of Guelph Or.

00:49:17.194 --> 00:49:20.364

the GTA. There are great opportunities all over.

00:49:20.364 --> 00:49:23.414

the province and so being prepared to relocate is.

00:49:23.414 --> 00:49:26.074

a really important ingredient to success.

00:49:26.274 --> 00:49:29.624

In the job search, so keeping your options open.

00:49:29.624 --> 00:49:33.024

looking for opportunities. An looking for other experiences.

00:49:33.024 --> 00:49:36.604

in ways to grow. So keeping your eye open.

00:49:36.604 --> 00:49:39.124

for those opportunities is really important.

00:49:40.834 --> 00:49:43.004

And Andrew pick it up the next slide.

00:49:45.384 --> 00:49:48.804

So for those of you who are in cooperate now.

00:49:50.604 --> 00:49:53.974

In your first semester in your second semester, you need to.

00:49:53.974 --> 00:49:57.194

maintain some requirements to stay in the quad.

00:49:57.194 --> 00:50:00.254

program. So a minimum 2.0 credits.

00:50:00.254 --> 00:50:03.574

per semester. So that's a full time semester.

00:50:03.574 --> 00:50:06.904

and semesters. One and two you must maintain.

00:50:06.904 --> 00:50:09.954

a 70% cumulative average at the end of the winter.

00:50:09.954 --> 00:50:13.574

term. OK, for those of you who are.

00:50:13.574 --> 00:50:16.614

undeclared or not in coop yet.

00:50:16.614 --> 00:50:19.634

you can apply to Co op at the end of your.

00:50:19.634 --> 00:50:20.634
winter term.

00:50:20.754 --> 00:50:23.904
So that's the end of your next semester.

00:50:23.904 --> 00:50:27.484
term. Again, you must. It's competitive an you.

00:50:27.484 --> 00:50:30.724
must have a minimum cumulative average of 70.

00:50:30.724 --> 00:50:33.884
to apply. It's based.

00:50:33.884 --> 00:50:37.244
on availability and space and your admission.

00:50:37.244 --> 00:50:40.664
verage and undeclared students must declare

00:50:40.664 --> 00:50:43.824
re a major at the time that you're applying to Coop.

00:50:43.824 --> 00:50:43.824

00:50:45.504 --> 00:50:48.774
And that is the end of the court presentation.

00:50:48.774 --> 00:50:52.494
Andrew, thank you so much, Lauren.

00:50:52.494 --> 00:50:55.754
nd Katherine Ann Louisa for information.

00:50:55.754 --> 00:50:59.044
about careers and Co op. Obviously there will be lots.

00:50:59.044 --> 00:51:02.074
of opportunities to learn more.

00:51:02.074 --> 00:51:04.914
about that as the days go on in the weeks and months.

00:51:06.094 --> 00:51:09.284
But we are happy to answer your.

00:51:09.284 --> 00:51:12.294
questions now. You can put them.

00:51:12.294 --> 00:51:15.834
in the chat if you have questions and will talk to them.

00:51:15.834 --> 00:51:17.004

if you do.

00:51:18.094 --> 00:51:21.694
uh just put it in the chat and respond

00:51:21.694 --> 00:51:24.854
them. Thanks very much for.

00:51:24.854 --> 00:51:28.374
your patience as we got through this presentation.

00:51:28.374 --> 00:51:30.854
there's a lot to take in this first week.

00:51:32.124 --> 00:51:35.214
But we are available not seeing any questions come.

00:51:35.214 --> 00:51:37.844
up, I'll just give it a few more few more minutes.

00:51:38.624 --> 00:51:42.054
I do want to make people aware.

00:51:42.054 --> 00:51:45.414
that tomorrow is another important event.

00:51:45.414 --> 00:51:48.434
called meetings for four majors.

00:51:48.434 --> 00:51:51.474
where you have an opportunity to sit in with.

00:51:54.914 --> 00:51:58.004
Such as mechanical engineering program or the.

00:51:58.004 --> 00:52:01.104
bio and bio medical you can sit.

00:52:01.104 --> 00:52:04.324
in on a virtual presentation of.

00:52:04.324 --> 00:52:07.594
the faculty and area head explained.

00:52:07.594 --> 00:52:11.324
the program, what's unique about that program. If you're, especially if.

00:52:11.324 --> 00:52:14.344
till undecided. If you're undeclared going to these.

00:52:14.344 --> 00:52:17.684
events is good opportunity to learn about what's going on.

00:52:17.684 --> 00:52:20.704
and the really amazing work. That's the.

00:52:20.704 --> 00:52:24.744
faculty or doing the research, and what?

00:52:24.744 --> 00:52:26.634
makes that program exciting.

00:52:26.964 --> 00:52:30.674
And you have an opportunity to do that tomorrow at for.

00:52:30.674 --> 00:52:33.834
some limits at 10:30, which is double check for.

00:52:33.834 --> 00:52:37.824
tomorrow. So the bio medical biological.

00:52:37.824 --> 00:52:41.394
computer wrench in ES and see if the 10:30 tomorrow.

00:52:41.394 --> 00:52:41.394

00:52:42.034 --> 00:52:45.094
And for the environmental water resources in.

00:52:45.094 --> 00:52:48.214
the canickel, it's at 11:30, so be.

00:52:48.214 --> 00:52:51.954
aware of that the.

00:52:51.954 --> 00:52:53.144
meetings for majors.

00:52:54.334 --> 00:52:57.484
So I'm not seeing any questions, maybe Andrew?

00:52:57.484 --> 00:53:00.564
Yeah there is a question about whether.

00:53:00.564 --> 00:53:03.624
this presentation will be recorded and.

00:53:03.624 --> 00:53:07.184
if so, will it be posted somewhere.

00:53:07.184 --> 00:53:10.504
it is recording it's recording right now and it.

00:53:10.504 --> 00:53:13.974
will be posted and I'm sure students.

00:53:13.974 --> 00:53:17.064
will be sent the link somewhere. This will be posted. I can't.

00:53:17.064 --> 00:53:20.124
tell you over.

00:53:20.124 --> 00:53:23.204
right now, but it will be available in.

00:53:23.204 --> 00:53:24.284
posted for you.

00:53:25.354 --> 00:53:26.694
So share with your friends.

00:53:27.494 --> 00:53:28.404
If they haven't seen it.

00:53:34.874 --> 00:53:36.634
Any other questions from people?

00:53:39.194 --> 00:53:41.714
Here's one coming in.

00:53:42.774 --> 00:53:43.794
So.

00:53:45.554 --> 00:53:47.434

00:53:53.374 --> 00:53:56.544
some of them have been replied to already I'm an undeclared I don't have

00:53:56.544 --> 00:53:59.744
ve a co op option yet, so I want to ask how would I go?

00:53:59.744 --> 00:54:02.964
in order to get into the coop? So catherines.

00:54:02.964 --> 00:54:06.064
replying, but maybe you Catherine, would you mind just?

00:54:06.064 --> 00:54:09.144
sharing with everybody? But that question about undeclared?

00:54:09.144 --> 00:54:10.524
s going into coop?

00:54:12.724 --> 00:54:16.254
Sure, so at the end of the by the end of the winter semester.

00:54:16.254 --> 00:54:19.534
you would need to declare a major. Anuj would apply into.

00:54:19.534 --> 00:54:23.254
the clock program and you can start that process.

00:54:23.254 --> 00:54:27.524

by seeing one of the program counselors to.

00:54:27.524 --> 00:54:31.374
fill out the declare of the major. Just the.

00:54:31.374 --> 00:54:35.194
same as students who are in quiet now you must maintain.

00:54:35.194 --> 00:54:38.444
full-time courseload 2.00 credits.

00:54:38.444 --> 00:54:41.674
at least 2.00 credits and you'd be.

00:54:41.674 --> 00:54:44.484
wanting to have a minimum 70% average.

00:54:44.534 --> 00:54:47.904
But it is competitive, so keeping those grades high is.

00:54:47.904 --> 00:54:50.924
really important. Is that answering the question?

00:54:50.924 --> 00:54:54.264
Yep, that's great. Thank you. There's another call up.

00:54:54.264 --> 00:54:55.724
line, which I'm not sure about.

00:54:57.114 --> 00:55:00.304
What is the minimum course hours to remain in the coop?

00:55:00.304 --> 00:55:03.604
stream? Is it acceptable to make up for missing?

00:55:03.604 --> 00:55:07.104
hours in the summer? I think you need.

00:55:07.104 --> 00:55:10.184
the student might have met minimum courses.

00:55:10.184 --> 00:55:11.804
to remain in the coop stream.

00:55:13.304 --> 00:55:16.914
So I would assume that they're talking.

00:55:16.914 --> 00:55:20.084
about how many courses do I have to remain in?

00:55:20.084 --> 00:55:23.284
to stay in Co op, so students remain?

00:55:23.284 --> 00:55:26.634
as a full time student. That right, catherine? Yep, that's right.

00:55:26.634 --> 00:55:30.134
So 2.00 credits. But you also.

00:55:30.134 --> 00:55:33.354
would want to keep in a full course.

00:55:33.354 --> 00:55:36.954
load as much as possible. So because.

00:55:36.954 --> 00:55:40.654
any courses that you don't take in your first or your second semester.

00:55:40.654 --> 00:55:44.074
would be delayed, and would impact your sequence down the line.

00:55:44.074 --> 00:55:44.074

00:55:44.194 --> 00:55:47.594
And so at that point you're making an appointment with the program counts are.

00:55:47.594 --> 00:55:51.004
e Andrew, to talk about what those decisions mean.

00:55:51.004 --> 00:55:53.774
Is that fair? Andrew. Yep, that's great. Thank you.

00:55:54.944 --> 00:55:57.994
I only have 1.7 credits in.

00:55:57.994 --> 00:56:01.464
my first semester as I got as I received my transfer credits.

00:56:01.464 --> 00:56:04.544
So will it affect my coop? Yes it will.

00:56:04.544 --> 00:56:08.914
1.7 credits. You're only a part time student.

00:56:08.914 --> 00:56:12.254
Yes, you have received transfer credits and.

00:56:12.254 --> 00:56:15.314
it impacting what you.

00:56:15.314 --> 00:56:18.494
can take this semester. But we'll have to find you at least one more course.

00:56:18.494 --> 00:56:21.814
to take and I'm sure we can find an elective you can take.

00:56:21.814 --> 00:56:25.294
to get you up to full time status, so please contact.

00:56:25.294 --> 00:56:26.944
the program counseling office.

00:56:27.864 --> 00:56:30.904
Our email is edge counts and if you go on to.

00:56:30.904 --> 00:56:35.024
he engineering web page you can find us but NGENGCOUN.

00:56:35.024 --> 00:56:39.554
at your golf.ca or Boca online.

00:56:39.554 --> 00:56:42.164
appointments and we can help you with that.

00:56:44.774 --> 00:56:48.014
Where are these meetings TMR I have?

00:56:48.014 --> 00:56:51.104
no idea what TMR means, anybody?

00:56:51.104 --> 00:56:51.104

00:56:52.014 --> 00:56:55.104
That's tomorrow I get, I don't.

00:56:55.104 --> 00:56:58.114
t get the lingo tomorrow, the.

00:56:58.114 --> 00:57:00.754
meetings for majors are posted.

00:57:02.174 --> 00:57:05.264
By the whole week events you.

00:57:05.264 --> 00:57:08.354
should be able to click the link or you should.

00:57:08.354 --> 00:57:11.564
also get emails about them if you if you don't.

00:57:11.564 --> 00:57:14.884
don't have those links again, you can send an email.

00:57:14.884 --> 00:57:18.554
to engine counts. I'll just make an announcement here. This is our.

00:57:18.554 --> 00:57:18.554

00:57:19.234 --> 00:57:23.204
Main email address for the program counselors and we'll try and forward it.

00:57:23.204 --> 00:57:25.514

to you. Ange counts at CAA.

00:57:26.114 --> 00:57:26.914

00:57:27.494 --> 00:57:30.664

She another question, should we have got?

00:57:30.664 --> 00:57:33.624

our student ID's yet? Yes you should.

00:57:35.114 --> 00:57:38.164

Reach out to enrollment services about your student ID.

00:57:38.164 --> 00:57:41.344

and your ID cards. There's a process for that.

00:57:41.344 --> 00:57:43.254

ntact enrollment services.

00:57:45.734 --> 00:57:49.044

Any other questions? There was a question about textbooks.

00:57:49.044 --> 00:57:52.134

bookstore. The book store is a link.

00:57:52.134 --> 00:57:55.244

posted by Ryan where you?

00:57:55.244 --> 00:57:58.614

search by course and you can find the textbooks.

00:57:58.614 --> 00:58:02.024

required for your course. So you.

00:58:02.024 --> 00:58:03.214

an look for that.

00:58:05.814 --> 00:58:07.594

Any other questions?

00:58:09.024 --> 00:58:13.224

That you might have. This is a great time to ask.

00:58:13.224 --> 00:58:13.224

00:58:14.214 --> 00:58:18.334

Coordinators and doctor run spin some questions.

00:58:18.334 --> 00:58:19.064

you might have.

00:58:25.114 --> 00:58:28.404

We've been, we've been online.

00:58:28.404 --> 00:58:31.844
for an hour and I think.

00:58:31.844 --> 00:58:35.074
you maybe want to move on to the next.

00:58:35.074 --> 00:58:38.224
week event. Thank you so much for everybody.

00:58:38.224 --> 00:58:41.284
who's attended again. Please get.

00:58:41.284 --> 00:58:44.404
in contact with us before the program counters we.

00:58:44.404 --> 00:58:47.484
have online drop in this afternoon and tomorrow.

00:58:47.484 --> 00:58:51.384
afternoon and the following these two weeks after that.

00:58:51.384 --> 00:58:51.384

00:58:51.434 --> 00:58:54.664
Will be all day, except during the lunch hour so.

00:58:54.664 --> 00:58:57.994
you can book appointments to get academic questions answered.

00:58:57.994 --> 00:58:57.994

00:58:58.884 --> 00:59:02.004
Thanks everybody, thanks for the faculty and staff.

00:59:02.004 --> 00:59:05.954
who Leah, who's participated in the presentation.

00:59:05.954 --> 00:59:09.114
Thank you to the students. Enjoy your we can.

00:59:09.114 --> 00:59:10.784
enjoy your coming semester.

00:59:11.974 --> 00:59:15.824
Have a good day. Bye bye thanks Andrew.

00:59:15.824 --> 00:59:15.824

00:59:19.664 --> 00:59:25.854

00:59:25.854 --> 00:59:34.174
